

DOSPA6395X

Category	Double in column
Product Family	Oven
Power supply	Electric
Heat source	ELECTRICITY
Heat source second cavity	ELECTRICITY
Cooking method	Thermoseal
Cooking Method Secondary Oven	Static
Cleaning system	Pyrolitic
EAN code	8017709207786

Aesthetics

Aesthetic	Classic	Serigraphy type	Symbols
Colour	Stainless steel	Door	With 2 horizontal strips
Finishing	Fingerproof	Handle	Classic
Design	Flat	Handle Colour	Inox
Material	Stainless steel	Logo	Embossed
Type of steel	Brushed	Control knobs	Classic
Glass Type	Eclipse	Controls colour	Steel effect
Serigraphy colour	Black

Technical Features

Capacity (Lt)	72 l
---------------	------

Minimum Temperature	30 °C	Heating suspended when door is opened	Yes
Maximum temperature	280 °C		
No. of shelves	5		
N. of fans	1	Door	Cool
No. of lights	1	Removable door	Yes
Light type	Halogen	Full glass inner door	Yes
Light Power	40 W	Removable inner door	Yes
Light when door is opened	Yes	Total no. of door glasses	4
Lower heating element power	1200 W	Cooling system	Tangential
Upper heating element - Power	1000 W	Cooling duct	Double
Grill element - power	1700 W	Speed Reduction Cooling System	Yes
Large grill - Power	2700 W	Door Lock During Pyrolysis	Yes
Circular heating element - Power	2000 W	Usable cavity space dimensions (HxWxD)	360x460x425 mm
		Temperature control	Electronic
		Cavity material	Ever clean Enamel

Second Oven Technical Features

Minimum Temperature	50 °C	Grill element - power	1700 W
Maximum temperature	270 °C	Large grill - Power	2700 W
No. of shelves	2	Removable door	Yes
Tilting grill	Yes	Full glass inner door	Yes
No. of lights	1	Removable inner door	Yes
Light type	Halogen	No. of total door glasses	3
Light Power	40 W	No. of thermoreflecting door glasses	1
Bottom heating element power	1200 W	Usable cavity space dimensions (HxWxD)	169x440x443 mm
Upper heating element - Power	1000 W		

Performance / Energy Label

Number of cavities	2
--------------------	---

Performance /Energy Label - Second Cavity

Gross volume of second cavity 41 l

Accessories Included

Rack with back stop	1
---------------------	---

Rack with back and side stop	2	Enamelled deep tray (40mm)	2
Enamelled tray (20mm)	1	Insert grid	2
		Telescopic Guide rails, partial Extraction	1

Electrical Connection

Voltage	220-240 V	Voltage 2 (V)	380-415 V
Current	25 A	Frequency (Hz)	50/60 Hz
Nominal power	5700 W		

Symbols glossary

	Child lock: some models are fitted with a device to lock the programme/cycle so it cannot be accidentally changed.		Air cooling system: to ensure a safe surface temperatures.
	Defrost by time: with this function the time of thawing of foods are determined automatically.		Defrost by weight: With this function the defrosting time is determined
	Triple glazed doors: Number of glazed doors.		Quadruple glazed: Number of glazed doors.
	Electric		Enamel interior: The enamel interior of all Smeg ovens have a special antacid lining which helps keep the interior clean by reducing the amount of cooking grease adhering to it.
	Fingerprint proof stainless steel: Fingerprint proof stainless steel keeps stainless steel looking as good as new.		Fresh Touch: Most of Smeg ovens have a "cool door." Thanks to the combination of tangential cooling and internal heat-reflecting glasses, the temperature on the outer surface of the door is maintained below 50° C. In addition to providing safety, this system protects the sides of the furniture from overheating by the oven.
	Fan assisted base: the mix of fan and lower heating element alone allows to finish cooking foods already cooked on the surface but not internally more quickly. This system is recommended to finish cooking foods that are already well cooked on the surface, but not internally, which therefore require a moderate higher heat. Ideal for any type of food.		Fan with upper and lower elements: The elements combined with the fan aim to provide more uniform heat, a similar method to conventional cooking, so pre-heat is required. Most suitable for items requiring slow cooking methods.
	Upper and lower element only: a traditional cooking method best suited for single items located in the centre of the oven. the top pf the oven will always be hottest. Ideal for roast, fruit cakes, bread etc.		Lower heating element only: This function is ideal for foods that require extra base temperature without browning, e.g. pastry dishes, pizza. Also suitable for slow cooking of stews and casseroles.
	Circulaire + grill: Circulaire with upper element or grill: Similar to fan with upper element with the added cooking speed of circulaire, ideal for dishes with a crispy topping. When used with the grill the food will brown more quickly.		Circulaire: The combination of the fan and circular element around it gives a hot air cooking method. This provides many benefits including no preheat if cook time is more than 20 minutes, no flavour transfer when cooking different foods at the same time, less energy, and shorter cook times. Good for all types of food.
	ECO: The combination of the grill, fan and lower element is particularly suitable for cooking small quantities of food.		ECO: The combination of the grill, fan and lower element is particularly suitable for cooking small quantities of food.
	Grill element: Using of grill gives excellent results when cooking meat of medium and small portions, especially when combined with a rotisserie (where possible). Also ideal for cooking sausages and bacon.		Half grill: For rapid cooking and browning of foods. Best results can be obtained by using the top shelf for small items, the lower shelves for larger ones, such as chops or sausages. For half grill heat is generated only at the centre of the element, so is ideal for smaller quantities.

 <p>Fan with grill element: The fan reduces the fierce heat from the grill, providing an excellent method of grilling various foods, chops, steaks, sausages etc. giving even browning and heat distribution, without drying out the food. The top two levels recommended for use, and the lower part of the oven can be used to keep items warm at the same time, an excellent facility when cooking a grilled breakfast. Half grill (centre portion only) is ideal for small quantities of food.</p>	 <p>Circulaire with upper and lower elements: The use of the fan with both elements allows food to be cooked quickly and effectively, ideal for large joints that require thorough cooking. It offers a similar result to rotisserie, moving the heat around the food, instead of moving the food itself, enabling any size or shape to be cooked.</p>
 <p>All glass inner door: All glass inner door, a single flat surface which is simple to keep clean.</p>	 <p>The inner door glass: can be removed with a few quick movements for cleaning.</p>
 <p>Side lights: Two opposing side lights increase visibility inside the oven.</p>	 <p>Pyrolytic: Pyrolytic cleaning cycles can be selected as necessary to automatically clean the oven interior.</p>
 <p>Pyrolytic: The Eco pyrolytic cleaning function can be selected when the oven has a lighter build up of dirt. This function has a maximum duration of 1.5 hours.</p>	 <p>Warming up: An option for dish warming and keeping the prepared meals hot.</p>
 <p>ECO-logic: option allows you to restrict the power limit of the appliance real energy saving.</p>	 <p>Air at 40°C provides the perfect environment for proving yeast type dough mixes. Simply select the function and place dough in the cavity for allotted</p>
 <p>Rapid preheat: The rapid preheat function can be used to reach the selected temperature in just a few minutes.</p>	 <p>Sabbath: This function allows you to cook food during the Sabbath, the Holiday of rest in the Jewish religion, respecting the precepts. The oven works</p>
 <p>The oven cavity has 2 different cooking levels.</p>	 <p>The oven cavity has 5 different cooking levels.</p>
 <p>Smart Cooking System: for the perfect cooking it is simply necessary choosing the kind and the weight of food and the cooking temperature: any other setting will be established automatically.</p>	 <p>Telescopic rails: allow you to pull out the dish and check it without having to remove it from the oven entirely.</p>
 <p>Electronic control: Allows you to maintain temperature inside the oven with the precision 2-3 ° C. This enables to cook meals that are very sensitive to temperature changes, such as cakes, souffles, puddings.</p>	 <p>Tilting grill: the tilting grill can be easily unhooked to move the heating element and clean the roof of the appliance in one simple step.</p>
 <p>The capacity indicates the amount of usable space in the oven cavity in litres.</p>	 <p>The capacity indicates the amount of usable space in the oven cavity in litres.</p>

Benefit (TT)

PYROLYSIS – AUTOMATIC CLEANING FUNCTION

Easy oven cleaning with special pyrolytic function

At such a high temperature, the door locks automatically for safety, while the temperature of the door remains controlled so it is safe to touch

User adjustable function based on the level of dirt present in the oven.

Electronic control

The electronic control manages temperatures in the best possible way and promotes uniformity of heat

Allows you to maintain temperature inside the oven with the precision 2-3 ° C. This enables to cook meals that are very sensitive to temperature changes, such as cakes, souffles, puddings.

Telescopic guides

Convenience in safely extracting and inserting the bowls into the oven

Rapid pre-heating

Reduction in cooking cavity heating time by up to 50%

Smartcooking

150 automatic recipes for perfect results

Smart cooking offers a staggering 150 automatic recipes with pre-set parameters. Once you have chosen your dish from the menu, select the weight and the oven will automatically calculate the optimum cooking parameters for you, ensuring outstanding results without the guess work.

Touch guide

Più di 100 pop-up, richiamabili con un tocco prolungato effettuato su qualsiasi icona, forniscono indicazioni in merito all'utilizzo del display e alle cotture.
