Display

Program duration | Delay start | Residual time indicator

Display type	LED DISPLAY
On/off light	Yes
Programme progress indicator	
End of cycle indicator	
Clean filter indicator	Yes
Condenser container full indicator	Yes

Technical Features

Type of motor	Standard
Functioning	Electronic control
Humidity sensor	Yes
Time drying selection	From 20 to 200 min
Cooling down phase	Yes
Anti-iron phase	Yes
Alternate drum rotation	Yes
Internal light	Yes
Condenser filter	Yes
Drum material	Galvanized
Drum volume	112 l

Max. door opening angle	160 °
Door hinges	Right
Reversible door	Yes
Child lock (programme set lock)	Yes
Water condenser position	At the top
Heating pump system	Yes
Type of cooling gas	R290
Amount of cooling gas in kg	0,15

Condenser water drain hose	Yes
Column installation, with compatible washing-machine	With stacking kit, available as optional accessory

Performance / Energy label – Reg 2023

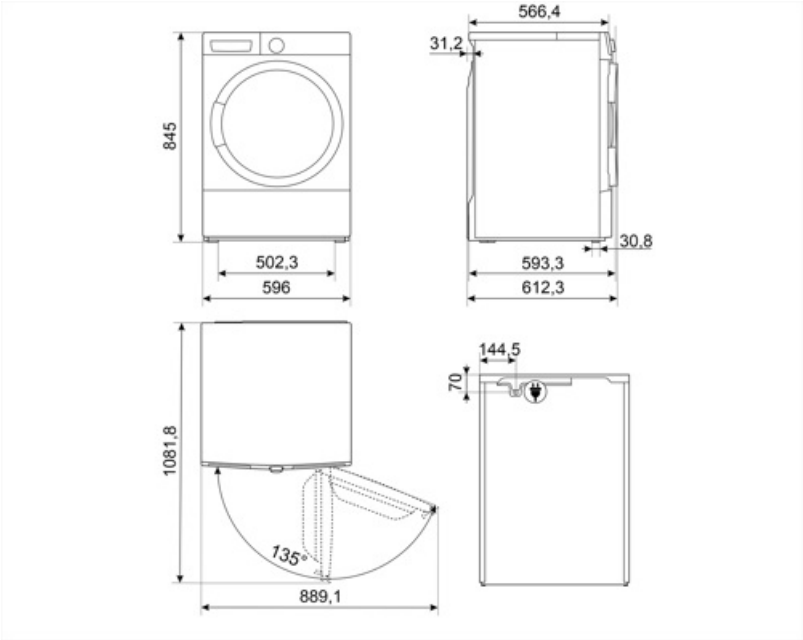

Load capacity (cotton)	9 kg	**Time of the standard cotton program at partial load**	120 min
Time of the standard cotton program at full load	205 min		

Electrical Connection

Connected power	1000 W	**Frequency (Hz)**	50 Hz
Current	10 A	**Power supply cable length**	150 cm
Voltage (V)	220-240 V	**Plug**	(G) UK e Singapore

Logistic Information

Width (mm)	596 mm	**Product Height (mm)**	845 mm
Depth (mm)	609 mm		

Compatible Accessories

KITSPDT

Stacking kit with drawer. Available for LB & DT models. Dimension (mm): W605xH37xD515
Total extraction of the drawer: 346mm

Symbols glossary

A+++: Appliances with this symbol can reduce energy consumption by a further 30% from the standard A energy rating.

Child lock: some models are fitted with a device to lock the programme/cycle so it cannot be accidentally changed.

Humidity sensor: allows to adjust dryer to obtain the desired drying level (Iron dry, Cupboard dry and Extra dry), saving time and reducing energy consumption. In addition, manual adjusting allows you to program drying time according to your preferences.

Internal lights: help to illuminate the inside of the drum.

Specific for child garments

Extra drying for cotton

Delicate garments that allows the drying

For synthetic fabrics without pigments and for cotton

For synthetic fabrics, ironing in not required

To dry wool clohtes placed on a suitable basket

Refresh: an ideal program to refresh the garments that have been kept for a long time indoors and eliminate unpleasant odors, without having to wash.

Shows the phase of program: Shows the phase in which the program is being.

Special program for garments / fabrics, such as children's clothes, which require sanitized and delicate washing.

Easy Iron: this is an option which can be selected to ensure the finished laundry is left with less creases to make ironing easier.

LED display: to show programmes, functions and options selected and the time to the end of the cycle.

End: Show the stage at which the program is in progress: the program has finished.

Timed program for shirts

Cupboard drying for cotton garments

Drying of cotton garments that need to be ironed

For fiber duvets indicating suitability on the label

Gentle drying for shirts in 30 min. avoiding the formation of folds

For synthetic fabrics, ironing is required

Super fast 45 min: a program designed to wash small amounts of laundry fast, ideal for washing lightly soiled garments.

Wool: this programme for wool or delicate fabrics uses slower rotations of the drum to ensure the utmost care for clothing.

Drying time: By setting the drying time it is possible to reach the desired drying level at low temperatures. The program stops at the end of the selected time.

The noise level is minimized
