

DUSF6300X

Category	Double under-counter
Product Family	Oven
Power supply	Electric
Heat source	ELECTRICITY
Heat source second cavity	ELECTRICITY
Cooking method	Thermo-ventilated
Cooking Method Secondary Oven	Static
Cleaning system	Ever Clean enamel
EAN code	8017709273590

Aesthetics

Aesthetic	Classica	Serigraphy type	Symbols
Colour	Stainless steel	Door	With 2 horizontal strips
Finishing	Fingerproof	Handle	Classic
Design	Flat	Handle Colour	Inox
Material	Stainless steel	Logo	Silk screen
Type of steel	Brushed	Control knobs	Classic
Glass Type	Eclipse	Controls colour	Steel effect
Serigraphy colour	Black		

Programs / Functions main oven

No. of cooking functions	4

Traditional cooking functions, cavity 2

Static

Eco

Small grill

Large grill

Controls

Display name	DigiScreen	Control setting	Knobs & touch buttons
Display technology	LED	No. of controls	4

Options

Time-setting options	Delay start and automatic end cooking	Timer	1
Minute minder	Yes		

Options Auxiliary Oven

Time-setting options	No delay options
----------------------	------------------

Technical Features

Minimum Temperature	50 °C	Heating suspended when door is opened	Yes
Maximum temperature	250 °C	Door opening type	Standard opening
No. of shelves	4	Door	Fresh Touch
N. of fans	1	Removable door	Yes
No. of lights	1	Full glass inner door	Yes
Light type	Halogen	Removable inner door	Yes
User-replaceable light	Yes	Total no. of door glasses	3
Light Power	40 W	Cooling system	Tangential
Light when door is opened	Yes	Cooling duct	Double
Upper heating element - Power	1000 W	Speed Reduction Cooling System	Yes
Grill element - power	1700 W	Usable cavity space dimensions (HxWxD)	316x460x412 mm
Large grill - Power	2700 W	Temperature control	Electro-mechanical
Circular heating element - Power	2700 W	Cavity material	Ever clean Enamel

Second Oven Technical Features

Minimum Temperature	80 °C
Maximum temperature	250 °C
No. of shelves	3
Tilting grill	Yes
No. of lights	1
Light type	Halogen
Light Power	40 W
Bottom heating element power	1200 W
Upper heating element - Power	1000 W

Grill element - power	1700 W
Large grill - Power	2700 W
Removable door	Yes
Full glass inner door	Yes
Removable inner door	Yes
No. of total door glasses	3
No. of thermoreflecting door glasses	1
Usable cavity space dimensions (HxWxD)	169x440x443 mm

Performance / Energy Label

Energy efficiency class	A
Net volume of the cavity	61 l
Energy consumption in forced air convection	2.77 MJ
Energy consumption per cycle in fan-forced convection	0.77 kWh

Number of cavities	2
Energy efficiency index	95.1 %
Energy Efficiency Index, second cavity	120 %

Performance /Energy Label - Second Cavity

Energy efficiency class, second cavity	B
Energy efficiency class, second cavity	B
Energy consumption per cycle in conventional mode, second cavity	0.84 kWh
Consumo di energia per ciclo in convezione naturale, seconda cavità	3.02 MJ

Net volume of the second cavity	35 l
Gross volume of second cavity	41 l
Cavity type EN 50304 second oven	small

Accessories included

Rack with back stop	2	Insert grid	2
Enamelled deep tray (40mm)	2		

Electrical Connection

Plug	Not present	Voltage 2	380-415 V
------	-------------	-----------	-----------

Voltage	220-240 V	Frequency (Hz)	50/60 Hz
Current	21 A	Power supply cable	150 cm
Nominal power	4800 W	length	

Compatible Accessories

GTP

Partially extractable telescopic guides (1 level), suitable for traditional ovens. Made in stainless steel, they guarantee stability and facilitate the smooth extraction of the trays.

GTT

Totally extractable telescopic guides (1 level), suitable for traditional ovens. Made in stainless steel, they guarantee stability and facilitate the smooth extraction of the trays.

Symbols glossary

			Air cooling system: to ensure a safe surface temperatures.
	4.3 inch display with LED technology, usability with knobs + 3 touch keys		Triple glazed doors: Number of glazed doors.
	Electric		B: Product energy rating, measured from A+++ to D / G depending on the product family.
	Ever Clean Enamel: Ever Clean enamel is applied electrostatically, corner to corner and edge to edge to prevent cracking or cracks over time. It is a particular pyrolytic enamel, resistant to acids which, in addition to being pleasantly bright, promotes greater cleaning of the oven walls, thanks to its lower porosity. It is baked at over 850 ° C and slowly polymerized at a scientifically determined rate to ensure uniform depth and strength Ever Clean enamel creates an impeccable finish both on the inside of the oven and on the trays, making the surfaces of the oven incredibly easy to maintain over time as it reduces the adhesion of fat during cooking		Fingerprint proof stainless steel: Fingerprint proof stainless steel keeps stainless steel looking as good as new.
	Fresh Touch: Most of Smeg ovens have a "cool door." Thanks to the combination of tangential cooling and internal heat-reflecting glasses, the temperature on the outer surface of the door is maintained below 50° C. In addition to providing safety, this system protects the sides of the furniture from overheating by the oven.		Static: Traditional cooking suitable for the preparation of one dish at a time. The fan is not active and the heat comes from below and from above at the same time. Static cooking is slower and more delicate, ideal in order to get well cooked and dry dishes even inside. Ideal for cooking all types of roasts, fatty meats, bread, filled cakes.
	Circulaire: it is the perfect function for cooking all types of dishes in a more delicate way. The heat comes from the back of the oven and is distributed quickly and evenly The fan is active. It is also ideal for cooking on multiple levels without mixing smells and flavors.		ECO: low energy consumption cooking: this function is particularly suitable for cooking on a single shelf with low energy consumption. It is recommended for all types of food except those that can generate a lot of moisture (for example vegetables). To achieve maximum energy savings and reduce time, it is recommended to put the food in the oven without preheating the cooking compartment
	ECO: low energy consumption cooking: this function is particularly suitable for cooking on a single shelf with low energy consumption. It is recommended for all types of food except those that can generate a lot of moisture (for example vegetables). To achieve maximum energy savings and reduce time, it is recommended to put the food in the oven without preheating the cooking compartment		Grill: Very intense heat coming only from above from a double heating element. The fan is not active. Provides excellent grilling and gratinating results. Used at the end of cooking, it gives a uniform browning to dishes.

	Half grill: For rapid cooking and browning of foods. Best results can be obtained by using the top shelf for small items, the lower shelves for larger ones, such as chops or sausages. For half grill heat is generated only at the centre of the element, so is ideal for smaller quantities.		Fan grill: very intense heat coming only from above from a double heating element The fan is active. It allows the optimal grilling of thickest meats. Ideal for large cuts of meat.
	All glass inner door: All glass inner door, a single flat surface which is simple to keep clean.		The inner door glass: can be removed with a few quick movements for cleaning.
	Side lights: Two opposing side lights increase visibility inside the oven.		The oven cavity has 3 different cooking levels.
	The oven cavity has 4 different cooking levels.		Tilting grill: the tilting grill can be easily unhooked to move the heating element and clean the roof of the appliance in one simple step.
	The capacity indicates the amount of usable space in the oven cavity in litres.		The capacity indicates the amount of usable space in the oven cavity in litres.
	The capacity indicates the amount of usable space in the oven cavity in litres.		The capacity indicates the amount of usable space in the oven cavity in litres.
