Kit extension for dishwasher and washing machine: lenght mt. 2

## Symbols glossary

	Anti-drip: Some models of dishwashers are equipped with special polymer nozzles anti-drip, that improve the process of drying.		Delay Timer: The delay timer can postpone the start of the program by up to 24 hours.
	Flexitabs: Flexitabs adjusts the wash cycle to give the best possible results regardless of the type of detergent used.		Noise Level: Excellent insulation and special devices keep noise to a minimum.
	Orbital wash system distributes water evenly throughout the 60cm dishwasher cavity, directing water with precision to ensure an excellent wash.		Eco: Eco, this economic wash programme uses a low amount of water and energy in order to provide the most environmentally friendly cleaning option.
	Soak programme: The soak programme provides a rinse to prevent dirt from drying.		REF_PRG_NORMAL_ECO_72dpi
	The symbols show the number of plate settings of the dishwasher.		Total Acquastop: In addition to the partial Acquastop protection present in all Smeg dishwashers, some models have an electronic device fitted to the water intake hose, which monitors water levels in the machine, detects leaks in the hose and switches off the water supply immediately when necessary.
	System WaterSave ensures the best washing results with minimal water consumption depending on the model of dishwasher.
