Symbols glossary

Aquatest measures the clarity of the water during an auto program, and automatically ensures the minimum consumption of water and energy.

Anti-drip: Some models of dishwashers are equipped with special polymer nozzles anti-drip, that improve the process of drying.

COMM_HEIGHT_82_72dpi

Delay Timer: The delay timer can postpone the start of the program by up to 24 hours.

LED display: to show programmes, functions and options selected and the time to the end of the cycle.

EasyGlide: Convenient EasyGlide system for easy unloading of the appliance that allows reaching maximum flexibility of load of the machine.

Fingerprint proof stainless steel: Fingerprint proof stainless steel keeps stainless steel looking as good as new.

Flexitabs: Flexitabs adjusts the wash cycle to give the best possible results regardless of the type of detergent used.

FlexiZone: The ½ load flexizone allows you to wash a reduced load saving energy, water and time and there are no restrictions on where the items are placed.

Noise Level: Excellent insulation and special devices keep noise to a minimum.

Orbital wash system distributes water evenly throughout the 60cm dishwasher cavity, directing water with precision to ensure an excellent wash.

Auto 60° - 70°: The auto program regulates the length of a cycle depending on the need for a prewash and the number of rinses required.

Daily Quick: The daily program is suitable for quick daily washing of dishes.

Delicate Quick: Program Delicate Quick is suitable for quick washing of delicate dishes.

Soak programme: The soak programme provides a rinse to prevent dirt from drying.

Strong&Fast: This special programme takes less than 1 hour to eliminate the most stubborn dirt and dried on residues.

REF_PRG_NORMAL_ECO_72dpi

The symbols show the number of plate settings of the dishwasher.

Total Acquastop: In addition to the partial Acquastop protection present in all Smeg dishwashers, some models have an electronic device fitted to the water intake hose, which monitors water levels in the machine, detects leaks in the hose and switches off the water supply immediately when necessary.
