|  | 4 stars freezing compartment for better food preservation.                                                                                               |  | The automatic defrost system works by automatically defrosting at regular intervals eliminating the need to defrost altogether.            |
|  | A+++: Appliances with this symbol can reduce energy consumption by a further 30% from the standard A energy rating.                                      |  | Ventilated: Forced distribution of cold air in the refrigerator compartment, which allows even temperature distribution within the fridge. |
|  | LED interior lighting: is a more energy efficient and long lasting way of illuminating the interior of the appliance.                                    |  | Life Plus 0°C: The temperature in the Lifeplus compartments is kept at 0°C, which preserves fresh meat and fish longer.                    |
|  | Smeg's evolution towards more intelligent and eco-friendly models has led to the choice of Inverter technology, which significantly reduces consumption. |  | Multiflow Cooling System: the Multiflow ventilation system allows an even distribution of cool air around the fridge cabinet.              |
|  | Energy efficiency class D                                                                                                                                |                                                                                   |                                                                                                                                            |
