### Symbols glossary

4 stars freezing compartment for better food preservation.

A+++: Appliances with this symbol can reduce energy consumption by a further 30% from the standard A energy rating.

The automatic defrost system works by automatically defrosting at regular intervals eliminating the need to defrost altogether.

Antibacterial treatment: antibacterial treatment to ensure better hygiene.

Ventilated: Forced distribution of cold air in the refrigerator compartment, which allows even temperature distribution within the fridge.

LED interior lighting: is a more energy efficient and long lasting way of illuminating the interior of the appliance.

Life Plus 0°C: The temperature in the Lifeplus compartments is kept at 0°C, which preserves fresh meat and fish longer.

Smeg's evolution towards more intelligent and eco-friendly models has led to the choice of Inverter technology, which significantly reduces consumption.

Multiflow Cooling System: the Multiflow ventilation system allows an even distribution of cool air around the fridge cabinet.
