Symbols glossary

4 stars freezing compartment for better food preservation.

The automatic defrost system works by automatically defrosting at regular intervals eliminating the need to defrost altogether.

A+++: Appliances with this symbol can reduce energy consumption by a further 30% from the standard A energy rating.

LED display: to show programmes, functions and options selected and the time to the end of the cycle.

Economical mode: Analyzes fridge functioning during the activation and optimizes the operating cycle in order to reduce power consumption.

Ventilated: Forced distribution of cold air in the refrigerator compartment, which allows even temperature distribution within the fridge.

Fast freezing: The fast freezing function brings the temperature of the compartment down when activated a few hours prior to usage.

Power saving mode: The power saving mode allows you to disable the refrigerator and keep the freezer working.

LED interior lighting: is a more energy efficient and long lasting way of illuminating the interior of the appliance.

Life Plus 0°C: The temperature in the Lifeplus compartments is kept at 0°C, which preserves fresh meat and fish longer.

Smeg's evolution towards more intelligent and eco-friendly models has led to the choice of Inverter technology, which significantly reduces consumption.

Multiflow Cooling System: the Multiflow ventilation system allows an even distribution of cool air around the fridge cabinet.

Energy efficiency class D
