

# FAB32RBL3UK

Product Family Refrigerator
Installation Free standing
Category Bottom Mount

Sistema Total No - Frost Total

Cooling type Total No Frost - Double Cooling

system

Defrost Automatic
Hinge type Standard
Hinge position Right

**EAN code** 8017709262471

# Symbols glossary

4 stars freezing compartment for better food preservation.

The automatic defrost system works by automatically defrosting at regular intervals eliminating the need to defrost altogether.

A+++: Appliances with this symbol can reduce energy consumption by a further 30% from the standard A energy rating.

Economical mode: Analyzes fridge functioning during the activation and optimizes the operating cycle in order to reduce power consumption.

Ventilated: Forced distribution of cold air in the refrigerator compartment, which allows even temperature distribution within the fridge.

Fast freezing: The fast freezing function brings the temperature of the compartment down when activated a few hours prior to usage.

Power saving mode: The power saving mode allows you to disable the refrigerator and keep the freezer working.

LED interior lighting: is a more energy efficient and long lasting way of illuminating the interior of the appliance.

Life Plus 0°C: The temperature in the Lifeplus compartments is kept at 0°C, which preserves fresh meat and fish longer.

Smeg's evolution towards more intelligent and eco-friendly models has led to the choice of Inverter technology, which significantly reduces consumption.

Multiflow Cooling System: the Multiflow ventilation system allows an even distribution of cool air around the fridge cabinet.

## Benefit (TT)

#### No-Frost system

The No Frost system prevents the formation of ice and contributes to better preservation of food in the refrigerator

#### Plastic multiflow system

The Multiflow system ensures even distribution of cold air inside the refrigerator

#### Fan

The fan contributes to an even distribution of air inside the refrigerator

### Refrigerant gas R600a

Environmentally friendly R600a refrigerant gas contributes to rapid cooling with lower energy consumption

#### Climate class

Climatic class SN-T makes the appliance suitable for working at room temperature between 10  $^{\circ}$ C and 43  $^{\circ}$ C (50  $^{\circ}$ F  $\sim$  109  $^{\circ}$ F)

#### External handle

The external handle ensures practicality and ease of use of the refrigerator

#### Refrigerator Internal lighting

Interior lighting for perfect visibility of shelves in the refrigerator compartment

#### Fruit and vegetable drawer

The fruit and vegetable drawer ensures the best storage conditions for fresh food, avoiding any contamination

### Inverter compressor

Inverter compressor reduces noise and vibration levels for a quiet and comfortable kitchen environment

Inverter compressor technology offers significant advantages for refrigeration systems, improving both performance and efficiency. Better temperature control ensures a more stable and constant indoor environment, preserving the freshness of food. This technology also results in reduced energy consumption, as the compressor adjusts its speed according to cooling needs.
