## Symbols glossary

|  |  |  |  |
|--|--|--|--|
|    | 4 stars freezing compartment for better food preservation.   |   | The automatic defrost system works by automatically defrosting at regular intervals eliminating the need to defrost altogether.                          |
|    | A+++: Appliances with this symbol can reduce energy consumption by a further 30% from the standard A energy rating.                        |   | Energy efficiency class D  |
|    | LED display: to show programmes, functions and options selected and the time to the end of the cycle.                                      |   | Economical mode: Analyzes fridge functioning during the activation and optimizes the operating cycle in order to reduce power consumption.               |
|    | Ventilated: Forced distribution of cold air in the refrigerator compartment, which allows even temperature distribution within the fridge. |   | Fast freezing: The fast freezing function brings the temperature of the compartment down when activated a few hours prior to usage.                      |
|    | Power saving mode: The power saving mode allows you to disable the refrigerator and keep the freezer working.                              |   | LED interior lighting: is a more energy efficient and long lasting way of illuminating the interior of the appliance.                                    |
|   | Life Plus 0°C: The temperature in the Lifeplus compartments is kept at 0°C, which preserves fresh meat and fish longer.                    |  | Smeg's evolution towards more intelligent and eco-friendly models has led to the choice of Inverter technology, which significantly reduces consumption. |
|  | Multiflow Cooling System: the Multiflow ventilation system allows an even distribution of cool air around the fridge cabinet.              |  |  |
