Symbols glossary

-  4 stars freezing compartment for better food preservation.
-  The automatic defrost system works by automatically defrosting at regular intervals eliminating the need to defrost altogether.
-  Ventilated: Forced distribution of cold air in the refrigerator compartment, which allows even temperature distribution within the fridge.
-  Power saving mode: The power saving mode allows you to disable the refrigerator and keep the freezer working.
-  Life Plus 0°C: The temperature in the Lifeplus compartments is kept at 0°C, which preserves fresh meat and fish longer.
-  Air plus: keeps food fresher for longer.
-  A+++: Appliances with this symbol can reduce energy consumption by a further 30% from the standard A energy rating.
-  Economical mode: Analyzes fridge functioning during the activation and optimizes the operating cycle in order to reduce power consumption.
-  Fast freezing: The fast freezing function brings the temperature of the compartment down when activated a few hours prior to usage.
-  LED interior lighting: is a more energy efficient and long lasting way of illuminating the interior of the appliance.
-  Inverter technology: The evolution of Smeg's driers towards more intelligent and environmentally sustainable models has led to the choice of using Inverter technology with heat pumps, which reduces significantly energy consumption.
-  No Frost: The No Frost and Frost free systems prevent ice from forming so that no defrosting is required.
