## Symbols glossary

 4 stars freezing compartment for better food preservation.	 The automatic defrost system works by automatically defrosting at regular intervals eliminating the need to defrost altogether.
 A++: Energy efficiency class A++ helps to save up to 20% energy compared to class A. Maximum performance with minimum consumption is guaranteed.	 LED display: to show programmes, functions and options selected and the time to the end of the cycle.
 Economical mode: Analyzes fridge functioning during the activation and optimizes the operating cycle in order to reduce power consumption.	 Ventilated: Forced distribution of cold air in the refrigerator compartment, which allows even temperature distribution within the fridge.
 Fast freezing: The fast freezing function brings the temperature of the compartment down when activated a few hours prior to usage.	 LED interior lighting: is a more energy efficient and long lasting way of illuminating the interior of the appliance.
 Smeg's evolution towards more intelligent and eco-friendly models has led to the choice of Inverter technology, which significantly reduces consumption.	 Multiflow Cooling System: the Multiflow ventilation system allows an even distribution of cool air around the fridge cabinet.
