## Performance / Energy Label - Reg. 2019

Annual energy  
consumption

453 kWh/year

Sum of the volumes of  
the frozen  
compartment(s)

4.38 cu. ft.

Total gross volume

19.28 cu. ft.

Airborne acoustical  
noise emissions

41 dB(A) re 1 pW

Fresh Food  
compartment - Gross  
Volume

14.90 cu. ft.

Climate class

SN, N, ST, T

## Electrical Connection

|                              |                   |                           |          |
|------------------------------|-------------------|---------------------------|----------|
| Plug                         | (A) USA e Messico | Voltage (V)               | 120 V    |
| Electrical connection rating | 197 W             | Frequency (Hz)            | 60 Hz    |
| Current                      | 2,6 A             | Power supply cable length | 70 7/8 " |

## Symbols glossary

|                                                                                    |                                                                                                                                            |                                                                                     |                                                                                                                                                          |
|------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------|
|    | 4 stars freezing compartment for better food preservation.                                                                                 |    | A++: Energy efficiency class A++ helps to save up to 20% energy compared to class A. Maximum performance with minimum consumption is guaranteed.         |
|    | The automatic defrost system works by automatically defrosting at regular intervals eliminating the need to defrost altogether.            |    | LED display: to show programmes, functions and options selected and the time to the end of the cycle.                                                    |
|    | Economical mode: Analyzes fridge functioning during the activation and optimizes the operating cycle in order to reduce power consumption. |    | Ventilated: Forced distribution of cold air in the refrigerator compartment, which allows even temperature distribution within the fridge.               |
|    | Fast freezing: The fast freezing function brings the temperature of the compartment down when activated a few hours prior to usage.        |    | LED interior lighting: is a more energy efficient and long lasting way of illuminating the interior of the appliance.                                    |
|    | Life Plus 0°C: The temperature in the Lifeplus compartments is kept at 0°C, which preserves fresh meat and fish longer.                    |    | Smeg's evolution towards more intelligent and eco-friendly models has led to the choice of Inverter technology, which significantly reduces consumption. |
|  | Air plus: keeps food fresher for longer.                                                                                                   |  | Energy efficiency class E                                                                                                                                |

## Benefit (TT)

---

### **No-Frost system**

The No Frost system prevents the formation of ice and contributes to better preservation of food in the refrigerator

### **Plastic multiflow system**

The Multiflow system ensures even distribution of cold air inside the refrigerator

### **Fan**

The fan contributes to an even distribution of air inside the refrigerator

### **Refrigerant gas R600a**

Environmentally friendly R600a refrigerant gas contributes to rapid cooling with lower energy consumption

### **Climate class**

Climatic class SN-T makes the appliance suitable for working at room temperature between 10 °C and 43 °C (50 °F ~ 109 °F)

### **External handle**

The external handle ensures practicality and ease of use of the refrigerator

### **Life Plus 0°**

Temperature-controlled Life Plus compartment for optimal storage of specific food categories

### **Refrigerator Internal lighting**

Interior lighting for perfect visibility of shelves in the refrigerator compartment

### **Freezer internal lighting**

Interior lighting for perfect visibility of the drawers in the freezer compartment

### **Fruit and vegetable drawer**

The fruit and vegetable drawer ensures the best storage conditions for fresh food, avoiding any contamination

### **Inverter compressor**

Inverter compressor reduces noise and vibration levels for a quiet and comfortable kitchen environment

Inverter compressor technology offers significant advantages for refrigeration systems, improving both performance and efficiency. Better temperature control ensures a more stable and constant indoor environment, preserving the freshness of food. This technology also results in reduced energy consumption, as the compressor adjusts its speed according to cooling needs.

### **Automatic Ice Maker**

Automatic ice maker for ice always available when needed

The automatic ice maker is connected directly to the kitchen water supply, so there is no need to manually fill any tanks. This saves considerable time and ensures hygiene and convenience.

### **Internal display**

Internal display for targeted temperature control and a clean, minimalist design
