

# FAB50URPB3

Product family Refrigerator
Installation Free-standing
Category Top-mount

Cooling type Total no-frost - Dual-flow cooling

system

Defrost Automatic Hinge position Right

**EAN code** 8017709321543

## **Aesthetic**

**Aesthetics** Retro-style Applied Logo Color Pastel blue Door shelf profile color Silver **Finishing** Glossy Drawers profile color Silver Glass shelf profile color Chromed Handle External LED Handle color Chromed Display Chromed Display position Logo color Internal Side material Water filter Steel Yes Side color Pastel blue

# **Electrical Connection**

Plug (B) NEMA 5-15P Voltage (V) 120 V
Electrical connection 215 W Frequency (Hz) 60 Hz
rating Power cord length 70 7/8 "
Current 2,6 A

# Symbols glossary

4 stars freezing compartment for better food preservation.

A++: Energy efficiency class A++ helps to save up to 20% energy compared to class A. Maximum performance with minimum consumption is guaranteed.

The automatic defrost system works by automatically defrosting at regular intervals eliminating the need to defrost altogether.

LED display: to show programmes, functions and options selected and the time to the end of the cycle.

Economical mode: Analyzes fridge functioning during the activation and optimizes the operating cycle in order to reduce power consumption.

Ventilated: Forced distribution of cold air in the refrigerator compartment, which allows even temperature distribution within the fridge.

Fast freezing: The fast freezing function brings the temperature of the compartment down when activated a few hours prior to usage.

LED interior lighting: is a more energy efficient and long lasting way of illuminating the interior of the appliance.

Life Plus 0°C: The temperature in the Lifeplus compartments is kept at 0°C, which preserves fresh meat and fish longer.

Inverter technology: The evolution of Smeg's driers towards more intelligent and environmentally sustainable models has led to the choice of using Inverter technology with heat pumps, which reduces significantly energy consumption.

Air plus: keeps food fresher for longer.

E

Energy efficiency class E

# Benefit (TT)

#### No-Frost system

The No Frost system prevents the formation of ice and contributes to better preservation of food in the refrigerator

### Plastic multiflow system

The Multiflow system ensures even distribution of cold air inside the refrigerator

#### Fan

The fan contributes to an even distribution of air inside the refrigerator

### Refrigerant gas R600a

Environmentally friendly R600a refrigerant gas contributes to rapid cooling with lower energy consumption

#### Climate class

Climatic class SN-T makes the appliance suitable for working at room temperature between 10 °C and 43 °C (50 °F  $\sim$  109 °F)

#### External handle

The external handle ensures practicality and ease of use of the refrigerator

#### Life Plus 0°

Temperature-controlled Life Plus compartment for optimal storage of specific food categories

### Refrigerator Internal lighting

Interior lighting for perfect visibility of shelves in the refrigerator compartment

### Freezer internal lighting

Interior lighting for perfect visibility of the drawers in the freezer compartment

#### Fruit and vegetable drawer

The fruit and vegetable drawer ensures the best storage conditions for fresh food, avoiding any contamination

## Inverter compressor

Inverter compressor reduces noise and vibration levels for a quiet and comfortable kitchen environment

Inverter compressor technology offers significant advantages for refrigeration systems, improving both performance and efficiency. Better temperature control ensures a more stable and constant indoor environment, preserving the freshness of food. This technology also results in reduced energy consumption, as the compressor adjusts its speed according to cooling needs.

## Internal display

Internal display for targeted temperature control and a clean, minimalist design
