

# FAB50URPG3

**Product family** Refrigerator Installation Free-standing Category Top-mount

Cooling type Total no-frost - Dual-flow cooling

system

**Defrost Automatic** Hinge position Right

EAN code 8017709321536

## **Aesthetic**

**Aesthetics** Retro-style Applied Logo Color Pastel green Door shelf profile color Silver **Finishing** Glossy Drawers profile color Silver Glass shelf profile color Chromed Handle External LED Handle color Chromed Display Chromed Display position Logo color Internal Side material Water filter Steel Yes Side color Pastel green

# Refrigerator compartment features

No. of adjustable 2 shelves

Number of fruit and vegetables drawers

Type of adjustable

shelves

Glass

Crisper cover Yes

# **Refrigerator Inner Door**

Number of adjustable door shelves

3

Ice-maker Yes Fast-freezing Yes

compartment Ice maker Automatic

## Other technical features

Display functions Fast-freezing, ECO, Temperature alarm

Fast-freezing button

Door open alarm Acoustic and visual

Electronic Temperature setting type

No. of compressors Refrigerant gas type Compressor type Foam agent

R600a Inverter

Cyclopentane

# Performance / Energy Label

Annual energy consumption

453 KWh/year

Refrigerator volume Climatic class

14.90 cu. ft. SN, N, ST, T

Total volume Noise level

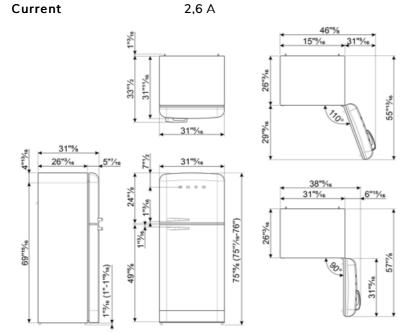

19.28 cu. ft. 41 dB(A) re 1 pW

**Electrical Connection** 

Plug (B) NEMA 5-15P Voltage (V) 120 V

Electrical connection 197 W Frequency (Hz) 60 Hz
rating Power cord length 70 7/8 "

# Symbols glossary

4 stars freezing compartment for better food preservation.

The automatic defrost system works by automatically defrosting at regular intervals eliminating the need to defrost altogether.

A++: Energy efficiency class A++ helps to save up to 20% energy compared to class A. Maximum performance with minimum consumption is guaranteed.

Energy efficiency class E

LED display: to show programmes, functions and options selected and the time to the end of the cycle.

Economical mode: Analyzes fridge functioning during the activation and optimizes the operating cycle in order to reduce power consumption.

Ventilated: Forced distribution of cold air in the refrigerator compartment, which allows even temperature distribution within the fridge.

Fast freezing: The fast freezing function brings the temperature of the compartment down when activated a few hours prior to usage.

LED interior lighting: is a more energy efficient and long lasting way of illuminating the interior of the appliance.

Life Plus 0°C: The temperature in the Lifeplus compartments is kept at 0°C, which preserves fresh meat and fish longer.

Inverter technology: The evolution of Smeg's driers towards more intelligent and environmentally sustainable models has led to the choice of using Inverter technology with heat pumps, which reduces significantly energy consumption.

Air plus: keeps food fresher for longer.

# Benefit (TT)

#### No-Frost system

The No Frost system prevents the formation of ice and contributes to better preservation of food in the refrigerator

#### Plastic multiflow system

The Multiflow system ensures even distribution of cold air inside the refrigerator

#### Fan

The fan contributes to an even distribution of air inside the refrigerator

### Refrigerant gas R600a

Environmentally friendly R600a refrigerant gas contributes to rapid cooling with lower energy consumption

#### Climate class

Climatic class SN-T makes the appliance suitable for working at room temperature between 10  $^{\circ}$ C and 43  $^{\circ}$ C (50  $^{\circ}$ F  $\sim$  109  $^{\circ}$ F)

#### External handle

The external handle ensures practicality and ease of use of the refrigerator

#### Life Plus 0°

Temperature-controlled Life Plus compartment for optimal storage of specific food categories

#### Refrigerator Internal lighting

Interior lighting for perfect visibility of shelves in the refrigerator compartment

### Freezer internal lighting

Interior lighting for perfect visibility of the drawers in the freezer compartment

#### Fruit and vegetable drawer

The fruit and vegetable drawer ensures the best storage conditions for fresh food, avoiding any contamination

### Inverter compressor

Inverter compressor reduces noise and vibration levels for a quiet and comfortable kitchen environment

Inverter compressor technology offers significant advantages for refrigeration systems, improving both performance and efficiency. Better temperature control ensures a more stable and constant indoor environment, preserving the freshness of food. This technology also results in reduced energy consumption, as the compressor adjusts its speed according to cooling needs.

### **Automatic Ice Maker**

Automatic ice maker for ice always available when needed

The automatic ice maker is connected directly to the kitchen water supply, so there is no need to manually fill any tanks. This saves considerable time and ensures hygiene and convenience.

## Internal display

Internal display for targeted temperature control and a clean, minimalist design
