## Symbols glossary (TT)

---

The automatic defrost system works by automatically defrosting at regular intervals eliminating the need to defrost altogether.

Fast freezing: The fast freezing function brings the temperature of the compartment down when activated a few hours prior to usage.

Air plus: keeps food fresher for longer.

LCD display: to optimize performance and simplify the use of the appliance.

LED interior lighting: is a more energy efficient and long lasting way of illuminating the interior of the appliance.

Slot-in: The refrigerators with Slot-in opening can be perfectly integrated into the furniture structure, as the doors open at 90° do not go beyond the side of the product. In case of installation next to the wall, it will be necessary to consider the dimensions of the handle in order to open the door at 90°.
