## Symbols glossary

	Child lock: some models are fitted with a device to lock the programme/cycle so it cannot be accidentally changed.		Microwave energy shortens cooking times dramatically and produces energy savings.
	Defrost by time: with this function the time of thawing of foods are determined automatically.		Defrost by weight: With this function the defrosting time is determined
	Fingerprint proof stainless steel: Fingerprint proof stainless steel keeps stainless steel looking as good as new.		Grill element: Using of grill gives excellent results when cooking meat of medium and small portions, especially when combined with a rotisserie (where possible). Also ideal for cooking sausages and bacon.
	Microwave + grill element: The use of the grill results in a perfect browning of the surface of the food. The action of microwaves allows instead of cooking in a short time the internal part of the food.		Microwave: Penetrating straight into the food, microwaves cook very quickly and with considerable energy savings. Suitable for cooking without fat, they are also able to thaw and heat food without altering its original appearance and aroma. The microwave function can also be combined with conventional functions with all the resulting advantages. Ideal for all types of food.
	Side lights: Two opposing side lights increase visibility inside the oven.		The oven cavity has 2 different cooking levels.
	The capacity indicates the amount of usable space in the oven cavity in litres.
