

# FQI60KD

Product Family	Refrigerator
Installation	Free Standing
Category	4 Doors
Reference width	Higher than 80
Reference height	160 - 200
No-Frost system	Yes
Cooling type	No frost
Defrost	Automatic
Hinge type	Standard
EAN code	8017709342128

## Aesthetics

Aesthetics	Universal	Side material	Steel
Colour	Dark Inox Look	Side colour	Silver
Finishing	Fingerproof	Logo	Applied
Design	Flat	Door shelves profile colour	Silver
Material	Steel Effect	Drawers profile colour	Silver
Handle	Integrated	Colour of glass shelf profile	Silver
Handle type	Fixed	Display	LED
Handle colour	Black	Display position	External (on door)
Logo colour	Chrome		

## Refrigerator compartment features

Number of compartments	3	No. of lights	2
Compartment types	Fruit and vegetable compartment, Variable temperature compartment - 3°/0°/3°C	Convertible temperature drawer	Yes
Crisper Cover	Yes	Internal light in fridge	Yes
Type of crisper/vegetable drawers cover	Glass	Type of internal light (fridge)	LED

## Refrigerator Inner Door

Number of adjustable door shelves 4

No. of bottle shelves 2

## Other Refrigerator features

MultiFlow

Metal

## Freezer compartment features

Number of drawers 4

No. of shelves 2

No. of lights 2

Internal light in freezer Yes

Type of internal light (freezer) LED

Type of shelves Plastic

## Other Freezer features

Fast freezing compartment

Yes

## Other technical features

Functions display

MultiZone

Fast freezing button

Door open alarm

Type of temperature control

No. of compressors

Refrigerant gas type

Type of compressor

Foam agent

Holiday, Fast freezing, Fast cooling, MultiZone, ECO

Yes

Yes

Yes

Electronic

1

R600a

Variable Speed Compressor

Cyclopentane

## Performance / Energy Label

Annual energy consumption 255 kWh/year

Energy efficiency class D

Airborne acoustical noise emission class C

Total volume 522 l

Sum of the volumes of the frozen compartment(s) 179 l

Noise level 39 dB(A) re 1 pW

Thaw time 11 h

4 star - Freezing capacity 13,0 kg/24h

Climatic class SN, N, ST

EI 80 %

Sum of the volumes of the chill compartment(s) and the unfrozen compartment(s) 343 l

## Electrical Connection

Plug	(F;E) Schuko	Voltage (V)	220-240 V
Nominal power	180 W	Frequency (Hz)	50 Hz
Current	1,5 A	Power supply cable length	180 cm

## Symbols glossary

	The automatic defrost system works by automatically defrosting at regular intervals eliminating the need to defrost altogether.		Energy efficiency class D
	LED display: to show programmes, functions and options selected and the time to the end of the cycle.		Economical mode: Analyzes fridge functioning during the activation and optimizes the operating cycle in order to reduce power consumption.
	Fast freezing: The fast freezing function brings the temperature of the compartment down when activated a few hours prior to usage.		Power saving mode: The power saving mode allows you to disable the refrigerator and keep the freezer working.
	LED interior lighting: is a more energy efficient and long lasting way of illuminating the interior of the appliance.		Inverter technology: The evolution of Smeg's driers towards more intelligent and environmentally sustainable models has led to the choice of using Inverter technology with heat pumps, which reduces significantly energy consumption.
	Multizone: Multizone compartment can be used as a refrigerator or a freezer compartment. Depending on your needs and eating habits, you can select settings, program the temperature using.		Multiflow Cooling System: the Multiflow ventilation system allows an even distribution of cool air around the fridge cabinet. The stainless steel panel gives a more premium look to the appliance.

---

## Benefit

---

### **No-Frost system**

The No Frost system prevents the formation of ice and contributes to better preservation of food in the refrigerator

### **Metallic Multiflow system**

The metal Multiflow system ensures an even distribution of cold air inside the refrigerator, which diffuses through an elegant stainless steel panel

A back panel with a series of openings ensures uniform circulation of cold air around each shelf of the refrigerator. This advanced air recirculation system ensures a constant temperature and humidity level, preserving food freshness for longer and helping to reduce food waste significantly

### **Multizone (variable temperature compartment)**

The Multizone system isolates a freezer compartment with adjustable temperature independent of the main compartment, to give maximum storage flexibility

The Multizone compartment can be used both as a freezer and as a refrigerator. Depending on one's needs and eating habits, each user can choose how to set it, programming the temperature via the external display.

### **Refrigerant gas R600a**

Environmentally friendly R600a refrigerant gas contributes to rapid cooling with lower energy consumption

### **Reversible door**

Reversible door ensures flexible installation and space optimisation

### **Refrigerator Internal lighting**

Interior lighting for perfect visibility of shelves in the refrigerator compartment

### **Freezer internal lighting**

Interior lighting for perfect visibility of the drawers in the freezer compartment

### **Inverter compressor**

Inverter compressor reduces noise and vibration levels for a quiet and comfortable kitchen environment

Inverter compressor technology offers significant advantages for refrigeration systems, improving both performance and efficiency. Better temperature control ensures a more stable and constant indoor environment, preserving the freshness of food. This technology also results in reduced energy consumption, as the compressor adjusts its speed according to cooling needs.

### **External display**

External display for simple and intuitive control with quick access to information
