## Symbols glossary

 The automatic defrost system works by automatically defrosting at regular intervals eliminating the need to defrost altogether.	 Energy efficiency class D
 LED display: to show programmes, functions and options selected and the time to the end of the cycle.	 Economical mode: Analyzes fridge functioning during the activation and optimizes the operating cycle in order to reduce power consumption.
 Fast freezing: The fast freezing function brings the temperature of the compartment down when activated a few hours prior to usage.	 Power saving mode: The power saving mode allows you to disable the refrigerator and keep the freezer working.
 LED interior lighting: is a more energy efficient and long lasting way of illuminating the interior of the appliance.	 Multiflow Cooling System: the Multiflow ventilation system allows an even distribution of cool air around the fridge cabinet. The stainless steel panel gives a more premium look to the appliance.
 Smeg's evolution towards more intelligent and eco-friendly models has led to the choice of Inverter technology, which significantly reduces consumption.	 Multizone: Multizone compartment can be used as a refrigerator or a freezer compartment. Depending on your needs and eating habits, you can select settings, program the temperature using.
