

# FQI60KD

<b>Product Family</b>	Refrigerator
<b>Installation</b>	Free Standing
<b>Category</b>	4 Doors
<b>Reference width</b>	Higher than 80
<b>Reference height</b>	160 - 200
<b>Sistema Total No - Frost</b>	Total
<b>Cooling type</b>	Total No Frost
<b>Defrost</b>	Automatic
<b>Hinge type</b>	Standard
<b>Door opening flush with the wall</b>	No
<b>Slot-in</b>	No
<b>EAN code</b>	8017709342128

## Aesthetics

## Symbols glossary

O sistema de descongelamento automático funciona descongelando automaticamente em intervalos regulares, eliminando a necessidade de descongelar completamente.

Display LED: para mostrar os programas, funções e opções selecionadas e o tempo até ao final do ciclo.

CONGELAMENTO RÁPIDO: A função de congelamento rápido reduz a temperatura do compartimento quando ativado algumas horas antes do uso.

Iluminação interior LED: é uma forma mais eficiente em termos energéticos e duradoura de iluminar o interior do aparelho.

Tecnologia do inversor: A evolução dos secadores Smeg para modelos mais inteligentes e ambientalmente sustentáveis levou à escolha do uso da tecnologia do inversor com bombas de calor, o que reduz significativamente o consumo de energia.

Multiflow Cooling System: the Multiflow ventilation system allows an even distribution of cool air around the fridge cabinet. The stainless steel panel gives a more premium look to the appliance.

Classe de eficiência energética D

Modo económico: Analisa o funcionamento da geladeira durante a ativação e otimiza o ciclo de funcionamento, a fim de reduzir o consumo de energia.

Modo de economia de energia: O modo de economia de energia permite-lhe desativar a geladeira e manter o congelador a funcionar.

Life Plus 0°C: A temperatura nos compartimentos Lifeplus é mantida a 0°C, o que preserva a carne fresca e o peixe por mais tempo.

Multizona: O compartimento multizona pode ser usado como uma geladeira ou um compartimento congelador. Dependendo das suas necessidades e hábitos alimentares, você pode selecionar configurações, programar a temperatura.

## Benefit (TT)

---

### No-Frost system

The No Frost system prevents the formation of ice and contributes to better preservation of food in the refrigerator

### Metallic Multiflow system

The metal Multiflow system ensures an even distribution of cold air inside the refrigerator, which diffuses through an elegant stainless steel panel

A back panel with a series of openings ensures uniform circulation of cold air around each shelf of the refrigerator. This advanced air recirculation system ensures a constant temperature and humidity level, preserving food freshness for longer and helping to reduce food waste significantly

### Multizone (variable temperature compartment)

The Multizone system isolates a freezer compartment with adjustable temperature independent of the main compartment, to give maximum storage flexibility

The Multizone compartment can be used both as a freezer and as a refrigerator. Depending on one's needs and eating habits, each user can choose how to set it, programming the temperature via the external display.

### Refrigerant gas R600a

Environmentally friendly R600a refrigerant gas contributes to rapid cooling with lower energy consumption

### Reversible door

Reversible door ensures flexible installation and space optimisation

### Life Plus 0°

Temperature-controlled Life Plus compartment for optimal storage of specific food categories

### Refrigerator Internal lighting

Interior lighting for perfect visibility of shelves in the refrigerator compartment

### Freezer internal lighting

Interior lighting for perfect visibility of the drawers in the freezer compartment

### Inverter compressor

Inverter compressor reduces noise and vibration levels for a quiet and comfortable kitchen environment

Inverter compressor technology offers significant advantages for refrigeration systems, improving both performance and efficiency. Better temperature control ensures a more stable and constant indoor environment, preserving the freshness of food. This technology also results in reduced energy consumption, as the compressor adjusts its speed according to cooling needs.

### External display

External display for simple and intuitive control with quick access to information
