Symbols glossary

 <p>Heavy duty cast iron pan stands: for maximum stability and strength.</p>	 <p>Installation in column: Installation in column</p>
 <p>Knobs control</p>	 <p>Air cooling system: to ensure a safe surface temperatures.</p>
 <p>4.3 inch display with LED technology, usability with knobs + 3 touch keys</p>	 <p>Triple glazed doors: Number of glazed doors.</p>
 <p>Enamel interior: The enamel interior of all Smeg ovens have a special antacid lining which helps keep the interior clean by reducing the amount of cooking grease adhering to it.</p>	 <p>Fan assisted base: the mix of fan and lower heating element alone allows to finish cooking foods already cooked on the surface but not internally more quickly. This system is recommended to finish cooking foods that are already well cooked on the surface, but not internally, which therefore require a moderate higher heat. Ideal for any type of food.</p>
 <p>Fan with upper and lower elements: The elements combined with the fan aim to provide more uniform heat, a similar method to conventional cooking, so pre-heat is required. Most suitable for items requiring slow cooking methods.</p>	 <p>Upper and lower element only: a traditional cooking method best suited for single items located in the centre of the oven. the top pf the oven will always be hottest. Ideal for roast, fruit cakes, bread etc.</p>
 <p>Circulaire: The combination of the fan and circular element around it gives a hot air cooking method. This provides many benefits including no preheat if cook time is more than 20 minutes, no flavour transfer when cooking different foods at the same time, less energy, and shorter cook times. Good for all types of food.</p>	 <p>Grill element: Using of grill gives excellent results when cooking meat of medium and small portions, especially when combined with a rotisserie (where possible). Also ideal for cooking sausages and bacon.</p>
 <p>Fan with grill element: The fan reduces the fierce heat from the grill, providing an excellent method of grilling various foods, chops, steaks, sausages etc. giving even browning and heat distribution, without drying out the food. The top two levels recommended for use, and the lower part of the oven can be used to keep items warm at the same time, an excellent facility when cooking a grilled breakfast. Half grill (centre portion only) is ideal for small quantities of food.</p>	 <p>All glass inner door: All glass inner door, a single flat surface which is simple to keep clean.</p>
 <p>Side lights: Two opposing side lights increase visibility inside the oven.</p>	 <p>Automatic opening: some models have Automatic opening door when the cycle is finished which is a perfect solution for handle-less kitchen units as no handle is needed. For safety reasons, the door locks automatically when the machine is in use to avoid it being opened inadvertently.</p>
 <p>The oven cavity has 5 different cooking levels.</p>	 <p>Telescopic rails: allow you to pull out the dish and check it without having to remove it from the oven entirely.</p>

UR

Ultra rapid burners: Powerful ultra rapid burners offer up to 5kw of power.

V

Vapour Clean: a simple cleaning function using steam to loosen deposits in the oven cavity.

115 lt
