Main Oven Technical Features

1151 III .5			
No. of lights	2	Removable inner door	Yes
Fan number	2	Total no. of door glasses	4
Net volume of the cavity	115 I	No.of thermo-reflective	2
Gross volume, 1st cavity	126	door glasses	
Cavity material	Ever Clean enamel	Safety Thermostat	Yes
No. of shelves	5	Cooling system	Tangential
Type of shelves	Metal racks	Door Lock During	Yes
Light type	Halogen	Pyrolisis	
Light Power	40 W	Usable cavity space	371x724x418 mm
Cooking time setting	Start and Stop	dimensions (HxWxD) Temperature control	Electro-mechanical
Light when oven door is	Yes	•	1700 W
open		Lower heating element power	1700 W
Door opening	Flap down	Upper heating element -	1200 W
Removable door	Yes	Power	
Full glass inner door	Yes	Grill elememt	1700 W
		Large grill - Power	2900 W
		Circular heating element - Power	2 x 2000 W

Grill type

Options Main Oven

Timer	Yes	Minimum Temperature	50 °C
End of cooking acoustic alarm	Yes	Maximum temperature	280 °C

Accessories included for Main Oven & Hob

Rack with back and side	1
stop	
20mm deep tray	1
40mm deep tray	1

Grill mesh 1 Telescopic Guide rails, 1 partial Extraction

Electrical Connection

Electrical connection rating	4200 W	Cable testing Type of electric cable	Yes Yes, Double and Three
Current	19 A		Phase
Voltage	220-240 V	Frequency	50/60 Hz
Type of electric cable installed	Yes, Single phase	Terminal block	5 poles

Compatible Accessories

AIRFRY9

Air fryer rack AIRFRY . Ideal for recreating traditional frying in the oven, but with fewer calories and less fat. It allows you to cook quickly and simply dishes such as French fries, fried vegetables and fish, ensuring perfect browning and crispiness.

BG6090-1

Cast iron grill plate suitable for Concerto cookers

BN940

GTT

Totally extractable telescopic guides (1 level) Extraction: 433 mm Material: Stainless steel AISI 430 polished

KITH95

Height extension kit (950 mm), stainless steel

KITPDQ

Height reduction feet (850 mm), stainless steel, for cookers

PPR9

SMOLD

Set of 7 silicone moulds for ice creams, ice lollies, pralines, ice cubes or to portion food. Usable from -60°C to +230°C

width: 3

SFLK1

Child lock

BBQ9

BN920

Partially extractable telescopic guides (1 level) Extraction: 300 mm Material: Stainless steel AISI 430 polished

KIT600SNL-9

Cover strip for hob back side, suitable for 90 cm Concerto cookers

KITP90X9

Splashback, 90 cm, stainless steel, suitable for pyrolytic Concerto cookers

PALPZ

Pizza shovel with fold away handle width: 315mm length : 325mm

Symbols glossary

Œ	Heavy duty cast iron pan stands: for maximum stability and strength.		Installation in column: Installation in column
6	Knobs control	<u></u>	Air cooling system: to ensure a safe surface temperatures.
DIGI		4	Quadruple glazed: Number of glazed doors.
	Enamel interior: The enamel interior of all Smeg ovens have a special antacid lining which helps keep the interior clean by reducing the amount of cooking grease adhering to it.	*)	Fan assisted base: the mix of fan and lower heating element alone allows to finish cooking foods already cooked on the surface but not internally more quickly. This system is recommended to finish cooking foods that are already well cooked on the surface, but not internally, which therefore require a moderate higher heat. Ideal for any type of food.
(%)	Fan with upper and lower elements: The elements combined with the fan aim to provide more uniform heat, a similar method to conventional cooking, so pre-heat is required. Most suitable for items requiring slow cooking methods.	()	Upper and lower element only: a traditional cooking method best suited for single items located in the centre of the oven. the top pf the oven will always be hottest. Ideal for roast, fruit cakes, bread etc.
8	Circulaire: The combination of the fan and circular element around it gives a hot air cooking method. This provides many benefits including no preheat if cook time is more than 20 minutes, no flavour transfer when cooking different foods at the same time, less energy, and shorter cook times. Good for all types of food.	ECO	ECO: The combination of the grill, fan and lower element is particularly suitable for cooking small quantities of food.
····	Grill element: Using of grill gives excellent results when cooking meat of medium and small portions, especially when combined with a rotisserie (where possible). Also ideal for cooking sausages and bacon.	***	Half grill: For rapid cooking and browning of foods. Best results can be obtained by using the top shelf for small items, the lower shelves for larger ones, such as chops or sausages. For half grill heat is generated only at the centre of the element, so is ideal for smaller quantities.
(<u>%</u>)	Fan with grill element: The fan reduces the fierce heat from the grill, providing an excellent method of grilling various foods, chops, steaks, sausages etc. giving even browning and heat distribution, without drying out the food. The top two levels recommended for use, and the lower part of the oven can be used to keep items warm at the same time, an excellent facility when cooking a grilled breakfast. Half grill (centre portion only) is ideal for small quantities of food.		Circulaire with upper and lower elements: The use of the fan with both elements allows food to be cooked quickly and effectively, ideal for large joints that require thorough cooking. It offers a similar result to rotisserie, moving the heat around the food, instead of moving the food itself, enabling any size or shape to be cooked.
旦	All glass inner door: All glass inner door, a single flat surface which is simple to keep clean.	J.	The inner door glass: can be removed with a few quick movements for cleaning.

|--|

Side lights: Two opposing side lights increase visibility inside the oven.

Automatic opening: some models have Automatic opening door when the cycle is finished which is a perfect solution for handle-less kitchen units as no handle is needed. For safety reasons, the door locks automatically when the machine is in use to avoid it being opened inadvertently.

Pyrolitic: Pyrolitic cleaning cycles can be selected as necessary to automatically clean the oven interior.

P,

Telescopic rails: allow you to pull out the dish and check it without having to remove it from the oven entirely.

The capacity indicates the amount of usable space in the oven cavity in litres.

The oven cavity has 5 different cooking levels.

.5

Ultra rapid burners: Powerful ultra rapid burners offer up to 5kw of power.

Benefit (TT)

Gas hob

Induction offers fast cooking and precise temperature control

Equipped with a thermocouple, the gas supply is cut off if the flame is extinguished for greater safety

Pyrolysis

Easy oven cleaning thanks to special pyrolytic function

Touch control

Easy and intuitive timer setting with a single touch

Storage compartment

More space thanks to the lower compartment, ideal for storing accessories or cooking utensils

True-convection

The best cooking performances guaranteed by ventilated circular flow.

Multiple fans and heating elements guarantee the perfect aerodynamic heat flow, allowing homogeneous and quicker cooking inside the cavity.

Multilevel cooking

Several cooking levels allow maximum flexibility of use

Multilevel halogen light

Internal halogen lighting on different levels guarantees excellent visibility

Removalble inner glass

Internal door glasses are easily removable for complete cleaning

Tangential cooling

New cooling system with tangential fan and airflow from the door to the splashback

Telescopic guides

Easy extraction and safe insertion of trays into the oven thanks to telescopic guides

Adjustable height

Cooker top flushed with the working area thanks to adjustable feet

Cold door

During any function, the external door glass is cold, avoiding any risk of burns

-ss-smeg

AirFry (AIRFRY optional accessory)

Lighter and tastier food thanks to airfry basket

Isothermic Cavity

The best cooking performance at the highest energy efficiency

BBQ (optional accessory)

Barbeque cooking directly in the oven with the double-sided grill

Pizza stone (optional accessory)

Baking with refractory stone for soft and crispy pizza and yeast products (STONE optional accessory)

Double Turbine

The oven has two fans equipped with two circular heating elements allowing cooking with rotating heat
