Symbols glossary

Fast freezing: The fast freezing function brings the temperature of the compartment down when activated a few hours prior to usage.

Inverter technology: The evolution of Smeg's driers towards more intelligent and environmentally sustainable models has led to the choice of using Inverter technology with heat pumps, which reduces significantly energy consumption.

Built-in niche

Power saving mode: The power saving mode allows you to disable the refrigerator and keep the freezer working.

Multizone: Multizone compartment can be used as a refrigerator or a freezer compartment. Depending on your needs and eating habbits, you can select settings, program the temperature using.

No Frost: The No Frost and Frost free systems prevent ice from forming so that no defrosting is required.

SMEG SPA 7/1/2025

Benefit (TT)

No-Forst Cooling System

The No Frost system prevents the formation of ice and contributes to better preservation of food in the refrigerator

Door-on-door Hinge

Fixed hinges, otherwise known as door-on-door hinges, directly connects the cabinet door to the appliance door

The cabinet door will not be attached to the rest of the cabinetry. Instead, it will be completely attached to the appliance door. Therefore, the appliance door will be bearing the weight of the cabinet door. This type of fitting is often sturdier than a sliding hinge fitting, and can give you a sleeker finish.

TFT Display

The TFT display offers an intuitive and elegant interface, making operation simple and immediate with a premium touch

Internal illumination

Interior lighting for perfect visibility of the drawers in the freezer compartment

External Handle

The external handle ensures practicality and ease of use of the freezer

R600a Refrigerant Gas

Environmentally friendly R600a refrigerant gas contributes to rapid cooling with lower energy consumption

Automatic Ice Maker

Automatic ice maker for ice always available when needed
