- |  |  |   |  |
|--|--|---|--|
|  | <p>Fast freezing: The fast freezing function brings the temperature of the compartment down when activated a few hours prior to usage.</p>   |  | <p>Power saving mode: The power saving mode allows you to disable the refrigerator and keep the freezer working.</p> |
|  | <p>Inverter technology: The evolution of Smeg's driers towards more intelligent and environmentally sustainable models has led to the choice of using Inverter technology with heat pumps, which reduces significantly energy consumption.</p> |  | <p>No Frost: The No Frost and Frost free systems prevent ice from forming so that no defrosting is required.</p>     |
