

HOBD182DG

Product Family Hob

Built-in Ultra-low profile or Fully Flushed

Dimensions 80 cm
Power supply Electric

Type Induction with integrated hood

Extraction Expulsion Electronic control Yes

EAN code 8017709331856

Energy efficiency class (EEC) A++

Compatible Accessories

CON60H

Flat duct connector for tubes 220*60 mm. It helps to connect more tubes of the kit KITEHOBD4

FLTHOBD4

Charcoal Anti Odour Filter regenerable as spare part suitable for HOBD482D

Rectangular Louvred grille, external

Ceramic Anti Odour Filter regenerable

integrated hood models HOBD682D

size 246*80 mm and internal 226*60*50 mm

and HOBD682R

as spare part suitable for Recirculating kit (accessory

KITF6HOBD) of the hob with

Filtering kit (lateral outlet) optional for Hobd: tube 1,5 mt and curve

KITF6H0BD

FLTHOBD

Recirculating kit for Hobd: tubes + regenerable anti-odor filter + grid in stainless steel with magnetics fix (easy to remove) that fit in a plinth of min. 6 cm

RED60H

Reducer from 90 to 60 mm suitable for rectangular tube of 220 mm. Size: 220x90x92 mm

TPK

Stainless steel grill plate to cook Teppanyaki dishes

Permanent auto pot detection

Heavy duty cast iron pan stands: for maximum stability and strength.

Evolution Slider totally Back-lighted ghost effect

Keep warm function: Keep warm function keeps the cooked food heated. In this mode the heating zone operates at a minimum capacity for 120 minutes and then turns off automatically.

Overfill protection: The special overfill protection shuts down the stove in the presence of overflow of liquids.

PAUSE_72dpi

Quick selection, with one touch cooking begins at the highest level, then automatically reduces after time. Ideal for dishes that require quick boiling and then continued cooking without constant control (eg beef broth).

Indication of residual heat: After the glass ceramic hob is switched off the residual heat indicator shows which of the heating zones still remains hot. When the temperature drops below 60 ° C, the indicator goes out.

Timer: All ceramic hobs have a timer which automatically ends cooking after a preset time.

Power booster: option allows the zone to work at full power when very intense cooking is necessary.

Child lock: some models are fitted with a device to lock the programme/cycle so it cannot be accidentally changed.

The slider control panel allows you to adjust the power simply by passing your finger across the touch device.

Multizone: allows several pans to be used at once, large or small, offering freedom of placement and greater flexibility

Min diameter pot detection of 9 cm

Possibility to set the maximum power absorbion of the hob

Quick Start function: the chosen temperature is reached faster. The heating element works at maximum power until the right temperature is reached.

Time elapsed: shows how long the cooking zone has been in use.
