

HOBD682D2

Product Family Hob

Built-in type Ultra-low profile or Fully Flushed

Dimensions 83 cm
Power supply Electric

Type Induction with integrated rangehood

Extraction Extraction
Electronic control Yes

EAN code 8017709341893

Energy efficieency class (EEC) A+

Compatible Accessories

CON60H

Flat duct connector for tubes 220*60 mm. It help to connect more tubes of the kit KITEHOBD4

CON90H

Connector for rectangular tubes high 90 mm. Size external 227*94*63 mm, internal 223*90*63 mm

n.2 high-performance carbon filters regenerable up to 8 times, washing it in the dishwasher and drying it at max 70° in the oven for max 120 minutes

FLTSTDHOBD2

Anti Odour Filter not regenerable as spare part, suitable for recirculation mode.

Rectangular Louvred grille, external size 246*80 mm and internal 226*60*50 mm

GRILLPLATE

Universal griddle for induction, gas, ceramic and electric hobs. Non-stick surface ideal for cooking meat, cheese and vegetables. Dimensions: 410 x 240 mm.

Stainless steel ventilation grille, size 426*60 mm.

KITDT50X10

tape for installation kit of HOBD*2. 10 m lenght. 50 mm width.

Ducted kit for HOBD*2 with tubes and curve high 10 mm.

KITEHOBD4

Filtering kit (lateral outlet) optional for Hobd: tube 1.5 mt and curve

Rectangular grid used in ventilation system. It regulates the air flow from the kitchen. Suitable for HOBD*2 models.

KITRHOBD6

KITSEBL

Squared grid used in ventilation system with backdraft Damper for regulating the air flow from the kitchen. Compatible for HOBD*2 models.

RED60H

Reducer from 90 to 60 mm suitable for rectangular tube of 220 mm. Size: 220x90x92 mm

TPK

Stainless steel grill plate to cook Teppanyaki dishes

TPKPLATE

Universal plate for induction, gas, ceramic and electric hobs. Non-stick surface ideal for cooking fish, eggs and vegetables. Dimensions: 410 X 240 mm.

...

Power booster: option allows the zone to work at full power when very intense cooking is necessary.

Child lock: some models are fitted with a device to lock the programme/cycle so it cannot be accidentally changed.

Premium individual Slider control for each zone

The slider control panel allows you to adjust the power simply by passing your finger across the touch device.

Keep warm function: Keep warm function keeps the cooked food heated. In this mode the heating zone operates at a minimum capacity for 120 minutes and then turns off automatically.

Melting function, suitable for slowly melting delicate foods such as chocolate or butter.

Multizone: allows several pans to be used at once, large or small, offering freedom of placement and greater flexibility

Overfill protection: The special overfill protection shuts down the stove in the presence of overflow of liquids.

PAUSE_72dpi

Quick selection, with one touch cooking begins at the highest level, then automatically reduces after time. Ideal for dishes that require quick boiling and then continued cooking without constant control (eg beef broth).

Quick Start function: the chosen temperature is reached faster. The heating element works at maximum power until the right temperature is reached.

Indication of residual heat: After the glass ceramic hob is switched off the residual heat indicator shows which of the heating zones still remains hot. When the temperature drops below 60 ° C, the indicator goes out.

Simmering function: ideal for long-cooking recipes, preventing food from boiling over or sticking to the pan.

Time elapsed: shows how long the cooking zone has been in use.

Timer: All ceramic hobs have a timer which automatically ends cooking after a preset time.
