

HTY505D

| | |
|---|-----------------------------------|
| Family | Professional dishwasher |
| Type | Hoodtype dishwashers |
| Basket dimensions | 500x500 mm |
| Control panel | Electronic |
| Standard drain pump with partial water renewal in the wash tank | Yes |
| Rinse pump | HTR system |
| Power connection | 400 V 3N~ / 16 A / 9,7 kW / 50 Hz |
| Product dimensions WxDxH | 620x736x1530 mm |

Target

| | |
|------------|---|
| Industries | Bar / Cafeterias / Bistros / Wine bars / Pubs; Hotels; Ristoranti / Catering; Catering; Food retail; QSR |
|------------|---|

Aesthetics

| | | | |
|-----------|-----|--------|---------|
| Led color | Red | Series | Ecoline |
|-----------|-----|--------|---------|

Technical Features

| | | | |
|-----------------------------------|-----------------------|-------------------------------|---------|
| Water consumption per cycle | 2,7 l | Detergent load | 1,5 l/h |
| Min. water connection temperature | 15°C | Rinse load | 0,4 l/h |
| Max. inlet temperature | 60°C | Usable load height | 440 mm |
| Max water hardness | 12°f - 7°dH | Maximum height with open hood | 2102 mm |
| Inlet pressure | 1-6 bar / 100-600 kPa | | |

Programs

| | |
|---------------------|-----|
| Maximum basket/hour | 40 |
| Maximum dishes/hour | 720 |

Electrical Connection

| | | | |
|-------------------------------------|--------|---------------------------------------|---|
| Tank heating element power | 2200 W | Default connection | 9700 W |
| Boiler heating element power | 9000 W | Optional electrical connection | 230 V~ / 29 A / 6,7 kW / 50 Hz; 400 V 3N~ / 13 A / 6,7 kW / 50 Hz |
| Wash pump power | 700 W | | |

Interface

| | | | |
|--------------------------|---------|-----------------------------|-----|
| Display | 4 digit | Cycle progress alert | Yes |
| Number of buttons | 5 | End-cycle alert | Yes |
| On/Off button | Yes | Manual diagnostic | Yes |

Construction

| | | | |
|--------------------------|---------------------------|--------------------------|------------------------|
| Tank Construction | Deep drawn Single wall | Filter | 5-stages filter system |
| Tank material | Stainless steel AISI 304 | Tank capacity | 14 l |
| Back panel | Prepainted | Boiler capacity | 8 l |
| Tank filter | Stainless steel | Protection class | IPX4 |
| | | Drain max. height | 1000 mm |

Accessories Included

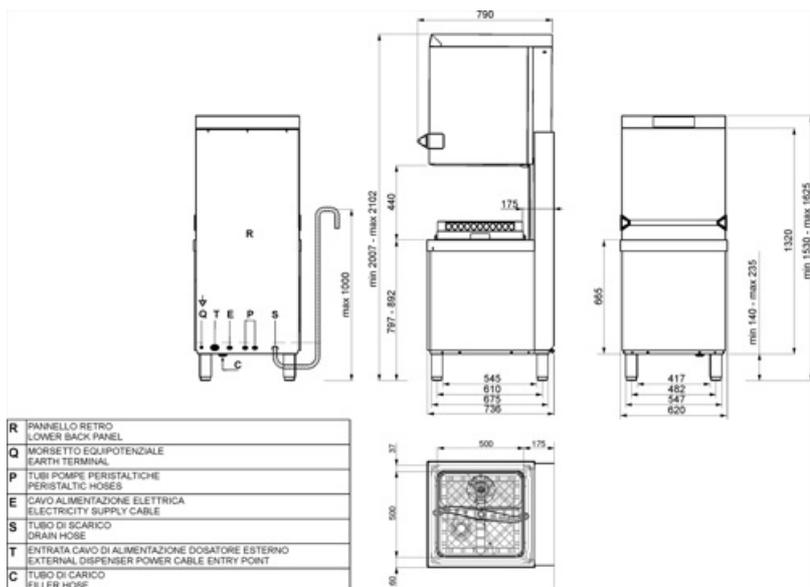

| | | | |
|-----------------------|------------|--------------------------|----------|
| Dish basket | 1x PB50D01 | Water supply hose | Yes - 2m |
| Cutlery basket | 1x PHOOS02 | Drain hose | Yes - 2m |
| Flat basket | 1x PB50G02 | | |

Equipments

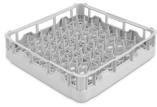

| | | | |
|---|--------------------|-------------------------------------|-------------|
| Peristaltic detergent dispenser | Electronic control | Cycle counter | Yes |
| Peristaltic rinse-aid dispenser | Electronic control | Break tank | Yes |
| Default chemicals dosing unit of measure | gr/lt | Water supply pipe diameter | DN15 - ½" |
| Rinse boiler Thermostop system | Yes - default | Drain supply pipe diameter | DN20-G 3/4" |
| Wash pump soft start system | Yes | Detergent (red) hose length | 2,2m |
| Option for auto daily switch on | Yes, default OFF | Rinse aid (blue) hose length | 2,2m |

Logistic Information

| | | | |
|--|-----------------|--------------------------|------------|
| EAN code | 8017709227715 | Net weight | 109,000 kg |
| Packed product dimensions (WxDxH) | 1700x700x900 mm | Gross weight (kg) | 124,000 kg |

Compatible Accessories

PB50D01

Polypylene basket for 18 plates,
500x500x105 mm

PHOOS01

Polypropylene single basket for cutlery

PHOOS03

8 compartments polypropylene basket
for cutlery suggested for hoodtype

WB50G01

Universal wire basket with flat bottom,
500x500x123 mm

WB50G03

Wire basket for 72 mm diameter glasses
with inclined bottom, 500x500x235 mm

WB50T02

Wire basket for 7 trays GN1/1 h 20 mm,
500x500 mm

PB50G01

Universal polypropylene basket,
500x500x100 mm

PHOOS02

6 compartments polypropylene
basket for cutlery

WB50D01

Wire basket for 18 dishes 250 mm
max. diameter or self service trays,
500x500 mm

WB50G02

Wire basket for 90 mm diameter max
glasses with sloped bottom,
500x500x170 mm

WB50G04

Wire basket for glasses 135 mm
diameter max, with sloped bottom,
500x500x170 mm

WH00S01

Wire insert for 12 small dishes

Benefit (TT)

Interface

Control panel with electronic buttons

The electronic control panel features an intuitive interface with soft-touch buttons, allowing easy selection of one of the three wash programmes: short, medium, or intensive. There are also buttons for power, selection, and cycle start. The display provides real-time monitoring of the tank and boiler temperature, as well as diagnostics, ensuring effortless and immediate control of the main functions.

5-stage system

Deep cleaning and spotless washes with the patented filtration system

The innovative Smeg filtration system consists of 5 stages to completely eliminate all impurities: the 1st stage captures larger food residues; in the 2nd and 3rd stages, finer particles are captured at this filtration stage; the 4th stage features a pre-filtration grid to prevent debris from entering the tank and clouding the water. Finally, the last stage is designed to further protect the washing and draining pumps from any debris that may accidentally enter the tank during filter cleaning.

The presence sensor filter alerts if the filtration system is out of position, ensuring safe washes every time.

HTR System

Consistent temperatures and pressures for uniform and effective dishwashing

Thanks to the HTR system (High Temperature Rinse) and the presence of the atmospheric boiler combined with the Thermostop, the cold inlet water does not enter the boiler during rinsing, ensuring a constant temperature of 85°C. The HTR system keeps the water hot for deep sanitisation and quick drying, ensuring constant pressure for uniform and effective cleaning.

Moulded tank

Superior washing performance and enhanced cleaning convenience with molded tub bottoms and basket guides

Smeg dishwashers are designed with moulded tank and basket guides. The absence of sharp edges ensures an optimised wash flow, guaranteeing hygiene and impeccable cleaning performance. Furthermore, this innovative design simplifies machine cleaning, reducing the need for maintenance interventions.

Door

Split and balanced doors for maximum ergonomics, with double-skin construction

The split, balanced doors are designed to ensure maximum ergonomics during the loading and unloading of utensils, making the process easier and minimising operator effort. Furthermore, the double-skin construction not only provides a robust structure but also ensures excellent thermal and acoustic insulation, helping to maintain a consistent internal temperature and reduce noise levels during operation, further enhancing the user experience.

Soft-start system

Effective management of the washing pump to protect your glassware

The Soft-Start function initiates the wash cycle gently and gradually, progressively increasing the water pressure. This system has been designed to provide optimal protection for the most fragile items, such as crystal glasses, significantly reducing the risk of chipping or damage. At the same time, it ensures excellent cleaning performance, combining efficiency and safety in every wash cycle.
