| <b>Filter</b>            | 5-stages filter system   | <b>Drain max. height</b> | 1000 mm      |

## Accessories Included

|                       |            |                          |                      |
|-----------------------|------------|--------------------------|----------------------|
| <b>Dish basket</b>    | PB50D01    | <b>Water supply pipe</b> | In acciaio Watermark |
| <b>Cutlery basket</b> | PHOOS02    | <b>Drain pipe</b>        | Yes - 2m             |
| <b>Flat basket</b>    | 1x PB50G02 |                          |                      |

## Equipments

|   |                         |   |             |
|---|-------------------------|---|-------------|
| <b>Peristaltic detergent dispenser</b>          | Yes, electronic control | <b>Break tank</b>   | Yes         |
| <b>Peristaltic rinse-aid dispenser</b>          | Yes, electronic control | <b>Partial renewal of water in the tank and built-in drain pump</b> | Yes         |
| <b>Default chemicals dosing unit of measure</b> | gr/lt                   | <b>Water supply pipe diameter</b>                                   | 16 mm       |
| <b>Rinse boiler Thermostop system</b>           | Yes - default           | <b>Drain supply pipe diameter</b>                                   | 21,5 mm     |
| <b>Wash pump soft start system</b>              | Yes                     | <b>Peristaltic detergent doser</b>                                  | Yes, manual |
| <b>Option for auto daily switch on</b>          | Yes, default OFF        | <b>Peristaltic detergent doser</b>                                  | Yes, manual |
| <b>Cycle counter</b>                            | Yes                     |   |             |

## Logistic Information

|                              |         |                                  |              |
|------------------------------|---------|----------------------------------|--------------|
| <b>Width packed product</b>  | 700 mm  | <b>Packed product dimensions</b> | 1700X700X900 |
| <b>Depth packed product</b>  | 900 mm  | <b>Net weight</b>                | 115,000 kg   |
| <b>Height packed product</b> | 1700 mm | <b>Gross weight (kg)</b>         | 128,000      |

## Compatible Accessories

### PB50D01

Basket made of polypropylene for 18 plates  
500x500

### PHOOS02

Basket in polypropylene for cutlery with  
6 compartments

### WB50G01

Universal wire basket with flat bottom  
500x500

### WB50G03

Wire basket for glasses with inclined  
bottom 500x500

### WH00S01

Wire insert for 12 small dishes

### PHOOS01

Single basket in polypropylene for  
cutlery

### WB50D01

Wire basket for 18 dishes and trays  
500x500

### WB50G02

Wire basket for glasses with inclined  
bottom 500x500

### WB50G04

Wire basket for glasses with inclined  
bottom 500x500

5 STAGE FILTER

---

## Benefit (TT)

---

### Interface

Control panel with electronic buttons

The electronic control panel features an intuitive interface with soft-touch buttons, allowing easy selection of one of the three wash programmes: short, medium, or intensive. There are also buttons for power, selection, and cycle start. The display provides real-time monitoring of the tank and boiler temperature, as well as diagnostics, ensuring effortless and immediate control of the main functions.

### 5-stage system

Deep cleaning and spotless washes with the patented filtration system

The innovative Smeg filtration system consists of 5 stages to completely eliminate all impurities: the 1st stage captures larger food residues; in the 2nd and 3rd stages, finer particles are captured at this filtration stage; the 4th stage features a pre-filtration grid to prevent debris from entering the tank and clouding the water. Finally, the last stage is designed to further protect the washing and draining pumps from any debris that may accidentally enter the tank during filter cleaning.

The presence sensor filter alerts if the filtration system is out of position, ensuring safe washes every time.

### HTR System

Consistent temperatures and pressures for uniform and effective dishwashing

Thanks to the HTR system (High Temperature Rinse) and the presence of the atmospheric boiler combined with the Thermostop, the cold inlet water does not enter the boiler during rinsing, ensuring a constant temperature of 85°C. The HTR system keeps the water hot for deep sanitisation and quick drying, ensuring constant pressure for uniform and effective cleaning.

### Moulded tank

Superior washing performance and enhanced cleaning convenience with molded tub bottoms and basket guides

Smeg dishwashers are designed with moulded tank and basket guides. The absence of sharp edges ensures an optimised wash flow, guaranteeing hygiene and impeccable cleaning performance. Furthermore, this innovative design simplifies machine cleaning, reducing the need for maintenance interventions.

### Integral double skin

Thermal and acoustic insulation guaranteed

The double wall is designed to optimise energy efficiency by reducing heat loss and accelerating water heating, resulting in lower energy consumption and faster cycle start-up times. Additionally, it provides effective acoustic insulation, helping to reduce noise and ensuring a quieter, more comfortable working environment for the staff.

---

### Soft-start system

Effective management of the washing pump to protect your glassware

The Soft-Start function initiates the wash cycle gently and gradually, progressively increasing the water pressure. This system has been designed to provide optimal protection for the most fragile items, such as crystal glasses, significantly reducing the risk of chipping or damage. At the same time, it ensures excellent cleaning performance, combining efficiency and safety in every wash cycle.
