Symbols glossary

24h: When selected this function refreshes the air for c. 10 minutes every hour over a 24 hour period, at minimum speed and an imperceptible noise level.

A+: Energy efficiency class A+ helps to save up to 10% energy compared to class A. Maximum performance with minimum consumption is guaranteed.

Filters: Model has filters to help remove grease from the steam emanating from the pans during cooking.

A smart infrared system, which allows a hood and hob with this feature to work together.

Switch off automatically: A special setting, to run after the end of cooking for a pre-set time and then switch off automatically.

Warning light(s): to advise when filters need changing.

Lights: All cooker hoods feature lights to illuminate the cooking area or add to the ambience of the kitchen.

Perimeter extraction panels: very efficient and aid noise reduction.

Touch controls: Easy to use touch controls allow the appliance to be programmed at the touch of a button.

Intensive/turbo setting: when extra fast extraction is required.

Benefit

Perimetral aspiration

Enhanced extraction with a perimeter aspiration system ensures optimised performance, for a cleaner, fresher kitchen

Perimeter aspiration enhances extraction efficiency by directing vapors along the edges of the panel beneath the filters, optimizing air capture

Dimmering & Tunable lights

Customisable LED lighting lets you adjust both the intensity and colour temperature, from warm to cool tones, so you can create the perfect lighting for any mood or task
