## Symbols glossary (TT)

	24h: When selected this function refreshes the air for c. 10 minutes every hour over a 24 hour period, at minimum speed and an imperceptible noise level.		Filters: Model has filters to help remove grease from the steam emanating from the pans during cooking.
	A smart infrared system, which allows a hood and hob with this feature to work together.		Switch off automatically: A special setting, to run after the end of cooking for a pre-set time and then switch off automatically.
	A+: Energy efficiency class A+ helps to save up to 10% energy compared to class A. Maximum performance with minimum consumption is guaranteed.		Warning light(s): to advise when filters need changing.
	Lights: All cooker hoods feature lights to illuminate the cooking area or add to the ambience of the kitchen.		Perimeter extraction panels: very efficient and aid noise reduction.
	Touch controls: Easy to use touch controls allow the appliance to be programmed at the touch of a button.		Intensive/turbo setting: when extra fast extraction is required.
