## Symbols glossary

**Filters:** Model has filters to help remove grease from the steam emanating from the pans during cooking.

**Connection between hob and hood**

**A+: Energy efficiency class A+** helps to save up to 10% energy compared to class A. Maximum performance with minimum consumption is guaranteed.

**Lights:** All cooker hoods feature lights to illuminate the cooking area or add to the ambience of the kitchen.

**Touch controls:** Easy to use touch controls allow the appliance to be programmed at the touch of a button.

**Intensive/turbo setting:** when extra fast extraction is required.

**Dimming Lights**

**V-Condense System** is a system that avoids the drips of condensation that you could show up on the hood within certain circumstance of use.

## Benefit (TT)

---

### **Autovent 2.0**

Centralized and practical control via Bluetooth connection between hob and hood

The Auto-Vent 2.0 system enables automatic hood management through connection with the hob: both appliances switch on simultaneously, and the extraction power adjusts in real time to the cooking intensity.

### **V-Condense System**

Maximum cleanliness and protection with inclined anti-condensation baffle filters in stainless steel and integrated fixed collector

The V-Condense system collects the condensation forming on the filters, channeling it into the fixed collector integrated into the hood, preventing dripping onto the hob and ensuring maximum operating efficiency.
