	...		V-Condense System is a system that avoids the drips of condensation that you could show up on the hood within certain circumstance of use.

Benefit (TT)

V-Condense System

Maximum cleanliness and protection with inclined anti-condensation baffle filters in stainless steel and integrated fixed collector

The V-Condense system collects the condensation forming on the filters, channeling it into the fixed collector integrated into the hood, preventing dripping onto the hob and ensuring maximum operating efficiency.
