Benefit

Always visible LCD display for precise weight measurements

Removable stainless steel bowl, maximum capacity 5 kg.

Easy conversion to four different units of measurement to prepare each recipe: g/ml lb.oz/fl.oz

Fast USB-C charging with the included cable ensures uninterrupted use, as the scale works even while charging. The rechargeable lithium-ion battery offers both reliability and convenience.

The tare function resets the bowl's weight, allowing you to measure each ingredient individually without starting from scratch.
