Symbols glossary

	24h: When selected this function refreshes the air for c. 10 minutes every hour over a 24 hour period, at minimum speed and an imperceptible noise level.		Filters: Model has filters to help remove grease from the steam emanating from the pans during cooking.
	Connection between hob and hood		Switch off automatically: A special setting, to run after the end of cooking for a pre-set time and then switch off automatically.
	Energy efficiency class A		Dimmering Lights
	Warning light(s): to advise when filters need changing.		Lights: All cooker hoods feature lights to illuminate the cooking area or add to the ambience of the kitchen.
	Tunable white from warm to cold		Intensive/turbo setting: when extra fast extraction is required.
	V-Condense System is a system that avoids the drips of condensation that you could show up on the hood within certain circumstance of use.
