Technical Features

Type of motor Standard

Electronic control functioning Yes

Programme selection knob Yes

Spin speed selection on display/LED No spin/ 600/ 800/ 1000

Display/led for temperature regulation Yes

Polypropylene tank Yes

Basket Stainless steel

Drum capacity 55 l

Door diameter 33 cm

Door opening 160°

Automatic variable load Yes

Antifoam system Yes

Load balancing system Automatic

Easy to access filter Yes

Child lock (functions block) Control block

Performance / Energy Label NEW 2019

Supplier's name or trademark SMEG

Rated Capacity 8 kg

Energy Efficiency Class D

Energy_cons_100 73 KWh

Water Consumption 48 litres

Spin-drying efficiency class C

Airbone acoustical noise class B

Airbone acoustical noise 76 dB(A) re 1 pW

Programme duration at rated capacity 3:30 h:min

Not included accessories

KITPLV2

Kit extension for dishwasher and washing machine: lenght mt. 2

Symbols glossary (TT)

	A+++: Appliances with this symbol can reduce energy consumption by a further 30% from the standard A energy rating.		Variable load: In all models of washing machines is present the system of variable load, according to which the machine automatically diversifies the wash cycle and the time of operation depending on the quantity and type of laundry introduced, allowing a significant saving of water and energy power, up to 30% compared to the versions with fixed load.
	Automatic Load Balancing: provides an ideal distribution of laundry in the drum. In case if the imbalance is detected, the rotation speed starts being controlled in such way to evenly redistribute laundry in the drum, and thus reduce vibration.		Child lock: some models are fitted with a device to lock the programme/cycle so it cannot be accidentally changed.
	LED display: to show programmes, functions and options selected and the time to the end of the cycle.		33 cm: Large loading hatch of 30-32-33 cm in diameter, makes laundry loading and unloading easier and faster with maximum ease of use.
	This option advises when the periodic cleaning of the filters is needed, in order to avoid forgetfulness and thus guarantee the perfect functioning of the dryer over time. The convenient position of the filters makes maintenance fast and extremely simple.		End: Show the stage at which the program is in progress: the program has finished.
	Antiallergic: Antiallergic program with particular attention to the total removal of residual detergent.		For lightly soiled fabrics in cotton and linen
	Cotton: For soiled fabrics in cotton		Prewash cotton
	To drain the water in the machine.		Hand wash: this specific programme for delicate fabrics uses slower rotations of the drum to ensure the utmost care for clothing.
	Mixed fabrics: this cycle is designed for lightly soiled laundry in a mix of cottons and synthetics, or can be used just to refresh stored items.		Super fast 15 min: a programme designed to wash small amounts of laundry fast, ideal for washing lightly soiled garments.
	Extra rinse: The Extra rinse option: can be added to the selected programme when more thorough cleansing of special fabrics is needed.		Gym: Gym, a cycle designed for washing lightly soiled garments, ie sports wear, this is a fast wash which is also kind to fabrics.
	Wool: this programme for wool or delicate fabrics uses slower rotations of the drum to ensure the utmost care for clothing.		Option that allow to reduce times of the selected program.
	Drum has maximum capacity of 8kg of dry laundry.		Ideal program for delicate and silk garments that require particular attention in washing. It uses room temperature water and slow drum rotations to ensure maximum garment care.

Jeans / Dark garments: Special cycle designed to meet the washing needs of jeans or dark garments. The program allows you to wash the garments respecting colors and minimizing creases thanks to minimal mechanical action and low temperatures.

Energy efficiency class D
