# LBB14PK-2

| | |
|---|---|
| **EAN Code** | 8017709229566 |
| **Product Family** | Washing Machine |
| **Commercial width** | 60 cm |
| **Commercial depth** | Standard capacity |
| **Installation** | Free-standing |
| **Load type** | Frontal |

## Aesthetics

| | | | |
|---|---|---|---|
| **Aesthetics** | 50's Style | **Door colour** | Pink |
| **Colour** | Pink | **Door window** | |
| **Front panel colour** | Pink | **Handle colour** | Pink |
| **Led/display colour** | Orange | **Drawer Colour** | |
| **Front panel type** | Smeg ST 2010 | **Cabinet colour** | Pink |
| **Function button colour** | Pink | **Top colour** | Pink |
| **On/Off button colour** | Pink | **Available colours** | LBB14PB-2; LBB14CR-2; LBB14WH-2 |
| **No. of control knobs** | 1 | | |
| **Programme/temperature knob colour** | Pink | **Alternative colours available** | White, Pastel blue, Cream |

## Programmes

| | |
|---|---|
| **Controls** | Electronic |
| **Programmes graphics** | Symbols |
| **No. of programmes** | 15 |

## Technical Features

| | | | |
|---|---|---|---|
| **Type of motor** | Standard | **Door diameter** | 30 cm |

| | |
|---|---|
| **Electronic control functioning** | Yes |
| **Programme selection knob** | Yes |
| **Spin speed selection on display/LED** | No spin/ 600/ 800/ 1000/ 1200/ 1400 |
| **Display/led for temperature regulation** | Yes |
| **Polypropilene tank** | Yes |
| **Basket** | Stainless steel |
| **Drum capacity** | 54 l |
| **Liquid detergent accessory as standard** | Yes |

| | |
|---|---|
| **Door opening** | 110° |
| **Automatic variable load** | Yes |
| **Antifoam system** | Yes |
| **Load balancing system** | Automatic |
| **Easy to access filter** | Yes |
| **Child lock (functions block)** | Control block |
| **Anti-flood system** | Yes |
| **Aquastop system** | Total |

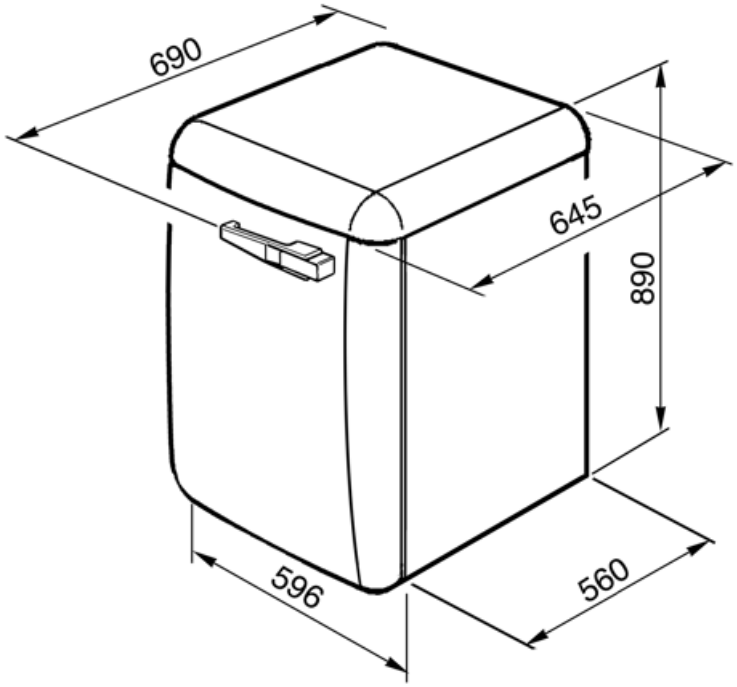

## Performance / Energy Label

| | |
|---|---|
| **Supplier's name or trademark** | SMEG |

## Electrical Connection

| | |
|---|---|
| **Nominal power** | 2200 W |
| **Current** | 10 A |
| **Voltage (V)** | 220-240 V |

| | |
|---|---|
| **Frequency (Hz)** | 50 Hz |
| **Power supply cable length** | 225 cm |
| **Plug** | (F;E) Schuko |

## Compatible Accessories

**KITPLV2**

Kit extension for dishwasher and washing machine: length mt. 2

## Symbols glossary

Total acquastop: Most models of Smeg dishwashers are equipped with Acquastop Totale, which allows to avoid flooding as a result of water leakage. The system consists of a a float sensor, disposed under the inner chamber of a dishwasher, which blocks water supply inside the appliance in case of water leakage into the lower tray. An additional electromagnetic valve on the water inlet hose also automatically blocks water supply if detecting water leakage in the hose. For Laundry: Total acquastop, the product is built with 3 levels of anti-flood devices to ensure protection against water leakage. For Laundry: Total acquastop, the product is built with 3 levels of anti-flood devices to ensure protection against water leakage.

Variable load: In all models of washing machines is present the system of variable load, according to which the machine automatically diversifies the wash cycle and the time of operation depending on the quantity and type of laundry introduced, allowing a significant saving of water and energy power, up to 30% compared to the versions with fixed load.

Child lock: some models are fitted with a device to lock the programme/cycle so it cannot be accidentally changed.

Delay timer: can be set to run the programme at a convenient time or to take advantage of off-peak energy periods.

30 cm: Large loading hatch of 30-32-33 cm in diameter, makes laundry loading and unloading easier and faster with maximum ease of use.

FlexiTime: The FlexiTime option allows the user to reduce the time of the cycle selected, providing extra flexibility and control.

No spin option: this option allows to exclude the last spin phase, draing the water from the tank

Easy Iron: this is an option which can be selected to ensure the finished laundry is left with less creases to make ironing easier.

Automatic Load Balancing: provides an ideal distribution of laundry in the drum. In case if the imbalance is detected, the rotation speed starts being controlled in such way to evenly redistribute laundry in the drum, and thus reduce vibration.

A++: Energy efficiency class A++ helps to save up to 20% energy compared to class A. Maximum performance with minimum consumption is guaranteed.

LED display: to show programmes, functions and options selected and the time to the end of the cycle.

This option advises when the periodic cleaning of the filters is needed, in order to avoid forgetfulness and thus guarantee the perfect functioning of the dryer over time. The convenient position of the filters makes maintenance fast and extremely simple.

Intensive: this option intensifies the selected program. Cycle duration and water consumption are reduced by taking into account the type of laundry, while still guaranteeing excellent washing results, even in the case of stains that are difficult to eliminate.

Prewash: program designed for heavily soiled garments.

Cold wash

Cotton: For soiled fabrics in cotton

To drain the water in the machine.

Hand wash: this specific programme for delicate fabrics uses slower rotations of the drum to ensure the utmost care for clothing.

Mixed fabrics: this cycle is designed for lightly soiled laundry in a mix of cottons and synthetics, or can be used just to refresh stored items.

Super fast 15 min: a programme designed to wash small amounts of laundry fast, ideal for washing lightly soiled garments.

To drain the water into the basket + centrifuge action

Softener

Synthetics: to wash your synthetic clothes (shirts, blouses, synthetic/cotton blends, etc.). It washes with a gentle action and has a shorter washing cycle compared to the Cottons programme. For curtains and tulle, use the Synthetic 40°C programme with prewash and anti-creasing functions selected. As their meshed texture causes excessive foaming, wash the veils/tulle by putting little amount of detergent into the main wash compartment. Do not put detergent in the prewash compartment.

Drum has maximum capacity of 7kg of dry laundry.

Use to wash your normally soiled, durable cotton and linen laundry. Although it washes longer than all other programmes, it provides high energy and water savings. Actual water temperature may be different from the stated wash temperature. When you load the machine with less laundry (e.g. ½ capacity or less), programme time may automatically get shorter. In this case, energy and water consumption will decrease more, providing a more economic wash. This programme is available in the models with the remaining time indicator.

Delicate: Clothing such as underwear, hosiery and luxury fabrics should be dried on the delicate cycle to help extend the life of the clothing.

Extra Rinse: Extra Rinse: adds an extra rinse cycle to that already provided in the program chosen, to remove any residual detergent. This function is particularly suitable for those with allergies or skin problems.

Jeans: a washing cycle which is kind to the colour and fabric of denim whilst minimising wrinkles.

Night: an ideal programme for those who want to take advantage of off-peak energy periods, this cycle is particularly quiet due to slower rotations of the drum.

Super fast: a programme designed to wash small amounts of laundry fast, ideal for washing lightly soiled garments.

Shirts: a cycle to wash shirts in a short time with the utmost care, using a delicate spin for easy ironing.

Gym: Gym, a cycle designed for washing lightly soiled garments, ie sports wear, this is a fast wash which is also kind to fabrics.

Wool: this programme for wool or delicate fabrics uses slower rotations of the drum to ensure the utmost care for clothing.

## Benefit

Standard dimensions to fit any home environment, with optimal capacity and advanced features

**15 programmes**

Up to 15 programmes to meet every daily need

**LED Display**

With soft touch control and LED lights for intuitive and fast setting and selection of each option
