

LBI147

EAN Code	8017709302818
Product Family	Washing Machine
Commercial width	60 cm
Installation	Fully integrated built-in
Load type	Frontal

Programme / Functions

Controls	Electronic
Programmes graphics	Symbols
No. of programmes	15
Programmes	

 Shirts	 Cotton	 Delicates
Eco 40-60	 Jeans	 Wool
 Hand Wash	 Mix	 Night
Duvet	 Quick Wash	 Rinse + Spin
 Drain + Spin	 Synthetics	 Sport

Washing Temperature

Cool	20°C	30°C
40°C	60°C	90°C

Special programmes

 Shirts	 Jeans	 Night
 Quick 15 min	 Sport	

## Display

## Technical Features

Type of motor      Standard

Electronic control      Yes

functioning

Programme selection knob      Yes

Programme/temperature selection knob      Yes

Spin speed selection on display/LED      No spin/ 600/ 800/ 1000/ 1200/ 1400

Polypropylene tank      Yes

Basket      Stainless steel

Drum capacity      52 l

Liquid detergent accessory as standard      Yes

Door diameter      30 cm

Door opening      110°

Automatic variable load      Yes

Antifoam system      Yes

Load balancing system      Automatic

Easy to access filter      Yes

Child lock (functions block)      Control block

Anti-flood system      Yes

Aquastop system      Total

Furniture door can be fitted on right or left side with adjustable hinges      Yes

## Performance / Energy Label NEW 2019

Supplier's name or trademark      SMEG

Rated Capacity      7 kg

Energy Efficiency Class      E

Energy\_cons\_100      77 kWh

Water Consumption      44 litres

Spin-drying efficiency class      B

Airborne acoustical noise class      A

Airborne acoustical noise      72 dB(A) re 1 pW

Programme duration at rated capacity      2:50 h:min

---

## Not included accessories

---

**KITWDHE1**

**KITPLV2**

Kit extension for dishwasher and washing machine: lenght mt. 2

## Symbols glossary (TT)

 <p><b>Total acquastop:</b> Most models of Smeg dishwashers are equipped with Acquastop Totale, which allows to avoid flooding as a result of water leakage. The system consists of a float sensor, disposed under the inner chamber of a dishwasher, which blocks water supply inside the appliance in case of water leakage into the lower tray. An additional electromagnetic valve on the water inlet hose also automatically blocks water supply if detecting water leakage in the hose. For Laundry: Total acquastop, the product is built with 3 levels of anti-flood devices to ensure protection against water leakage. For Laundry: Total acquastop, the product is built with 3 levels of anti-flood devices to ensure protection against water leakage.</p>	 <p><b>Easy Iron:</b> this is an option which can be selected to ensure the finished laundry is left with less creases to make ironing easier.</p>
 <p><b>Variable load:</b> In all models of washing machines is present the system of variable load, according to which the machine automatically diversifies the wash cycle and the time of operation depending on the quantity and type of laundry introduced, allowing a significant saving of water and energy power, up to 30% compared to the versions with fixed load.</p>	 <p><b>Automatic Load Balancing:</b> provides an ideal distribution of laundry in the drum. In case if the imbalance is detected, the rotation speed starts being controlled in such way to evenly redistribute laundry in the drum, and thus reduce vibration.</p>
 <p><b>Child lock:</b> some models are fitted with a device to lock the programme/cycle so it cannot be accidentally changed.</p>	 <p><b>A++:</b> Energy efficiency class A++ helps to save up to 20% energy compared to class A. Maximum performance with minimum consumption is guaranteed.</p>
 <p><b>Delay timer:</b> can be set to run the programme at a convenient time or to take advantage of off-peak energy periods.</p>	 <p><b>LED display:</b> to show programmes, functions and options selected and the time to the end of the cycle.</p>
 <p><b>30 cm:</b> Large loading hatch of 30-32-33 cm in diameter, makes laundry loading and unloading easier and faster with maximum ease of use.</p>	 <p>This option advises when the periodic cleaning of the filters is needed, in order to avoid forgetfulness and thus guarantee the perfect functioning of the dryer over time. The convenient position of the filters makes maintenance fast and extremely simple.</p>
 <p><b>FlexiTime:</b> The FlexiTime option allows the user to reduce the time of the cycle selected, providing extra flexibility and control.</p>	 <p><b>Intensive:</b> this option intensifies the selected program. Cycle duration and water consumption are reduced by taking into account the type of laundry, while still guaranteeing excellent washing results, even in the case of stains that are difficult to eliminate.</p>
 <p><b>Prewash:</b> program designed for heavily soiled garments.</p>	 <p><b>Energy efficiency class E</b></p>
 <p><b>Cotton:</b> For soiled fabrics in cotton</p>	 <p><b>Delicate:</b> Clothing such as underwear, hosiery and luxury fabrics should be dried on the delicate cycle to help extend the life of the clothing.</p>

	To drain the water in the machine.		Extra Rinse: Extra Rinse: adds an extra rinse cycle to that already provided in the program chosen, to remove any residual detergent. This function is particularly suitable for those with allergies or skin problems.
	Hand wash: this specific programme for delicate fabrics uses slower rotations of the drum to ensure the utmost care for clothing.		Jeans: a washing cycle which is kind to the colour and fabric of denim whilst minimising wrinkles.
	Mixed fabrics: this cycle is designed for lightly soiled laundry in a mix of cottons and synthetics, or can be used just to refresh stored items.		Night: an ideal programme for those who want to take advantage of off-peak energy periods, this cycle is particularly quiet due to slower rotations of the drum.
	Super fast 15 min: a programme designed to wash small amounts of laundry fast, ideal for washing lightly soiled garments.		Super fast: a programme designed to wash small amounts of laundry fast, ideal for washing lightly soiled garments.
	To drain the water into the basket + centrifuge action		Shirts: a cycle to wash shirts in a short time with the utmost care, using a delicate spin for easy ironing.
	Gym: Gym, a cycle designed for washing lightly soiled garments, ie sports wear, this is a fast wash which is also kind to fabrics.		Synthetics: to wash your synthetic clothes (shirts, blouses, synthetic/cotton blends, etc.). It washes with a gentle action and has a shorter washing cycle compared to the Cottons programme. For curtains and tulle, use the Synthetic 40°C programme with prewash and anti-creasing functions selected. As their meshed texture causes excessive foaming, wash the veils/tulle by putting little amount of detergent into the main wash compartment. Do not put detergent in the prewash compartment.
	Wool: this programme for wool or delicate fabrics uses slower rotations of the drum to ensure the utmost care for clothing.		Option that allow to reduce times of the selected program.
	Drum has maximum capacity of 7kg of dry laundry.
