Technische Daten / Energielabel

Nennkapazität Baumwollwäsche	7 kg	Energieverbrauch (Waschen und Trocknen)	5,6 kWh
Nennkapazität im Standard- Trocknungsprogramm für Baumwolle	4 kg	Wasserverbrauch (Waschgang) pro Zyklus	49 l
Max. Schleuderdrehzahl	1400 U/min	Wasserverbrauch (Waschen und Trocknen) im Standardprogramm Baumwolle	89 l
Energieeffizienzklasse auf einer Skala von A+++ (höchste Effizienz) bis D (geringste Effizienz)	B	Dauer des Standardprogramms	420 min.
Waschwirkungsklasse auf einer Skala von A (höchste Effizienz) bis G (niedrigste Effizienz)	A	Energieverbrauch (Waschgang)	260 kWh
Energieeffizienzklasse	BA	Energieverbrauch (Waschen + Trocknen)	1120 kWh
Luftschallemissionen (Waschen)	59 dB(A) re 1 pW	Wasserverbrauch (Waschgang)	9800 l
Luftschallemissionen (Schleudern)	75 dB(A) re 1 pW	Wasserverbrauch (Waschen und Trocknen)	17800 l
Luftschallemissionen (Trocknen)	61 dB(A) re 1 pW	Restfeuchte	50 %
Energieverbrauch des Standardprogramms "Baumwolle" 60°C bei vollständiger Befüllung	1,3 kWh

Symbols glossary

	<p>Total acquastop: Most models of Smeg dishwashers are equipped with Acquastop Totale, which allows to avoid flooding as a result of water leakage. The system consists of a float sensor, disposed under the inner chamber of a dishwasher, which blocks water supply inside the appliance in case of water leakage into the lower tray. An additional electromagnetic valve on the water inlet hose also automatically blocks water supply if detecting water leakage in the hose. For Laundry: Total acquastop, the product is built with 3 levels of anti-flood devices to ensure protection against water leakage. For Laundry: Total acquastop, the product is built with 3 levels of anti-flood devices to ensure protection against water leakage.</p>		<p>Easy Iron: this is an option which can be selected to ensure the finished laundry is left with less creases to make ironing easier.</p>
	<p>Variable load: In all models of washing machines is present the system of variable load, according to which the machine automatically diversifies the wash cycle and the time of operation depending on the quantity and type of laundry introduced, allowing a significant saving of water and energy power, up to 30% compared to the versions with fixed load.</p>		<p>Automatic Load Balancing: provides an ideal distribution of laundry in the drum. In case if the imbalance is detected, the rotation speed starts being controlled in such way to evenly redistribute laundry in the drum, and thus reduce vibration.</p>
	<p>Kindersicherung: Eine Tastensperre, die einen ungewollten Zugriff auf die Funktionen verhindert.</p>		<p>Delay timer: can be set to run the programme at a convenient time or to take advantage of off-peak energy periods.</p>
	<p>LED-Display: zur optischen Anzeige der gewählten Programme, Funktionen und Optionen sowie die Restlaufzeit bis Programmende.</p>		<p>30 cm: Large loading hatch of 30-32-33 cm in diameter, makes laundry loading and unloading easier and faster with maximum ease of use.</p>
	<p>Gentle drying: program designed to get laundry ready for easy ironing.</p>		<p>This shows the amount of laundry that can be inserted into the tumble dryer in KG.</p>
	<p>Energieeffizienzklasse B</p>		<p>This option advises when the periodic cleaning of the filters is needed, in order to avoid forgetfulness and thus guarantee the perfect functioning of the dryer over time. The convenient position of the filters makes maintenance fast and extremely simple.</p>
	<p>Edelstahl mit Anti-Finger-Protektion: eine besondere Schutzschicht auf dem Edelstahl verhindert die Sichtbarkeit eines Fingerabdrucks und ist somit eine Pflegeerleichterung.</p>		<p>FlexiTime: The FlexiTime option allows the user to reduce the time of the cycle selected, providing extra flexibility and control.</p>
	<p>Intensive: this option intensifies the selected program. Cycle duration and water consumption are reduced by taking into account the type of laundry, while still guaranteeing excellent washing results, even in the case of stains that are difficult to eliminate.</p>		<p>Prewash: program designed for heavily soiled garments.</p>

-  Cleaning programme: A cleaning programme has been created to maintain the performance of washer/dryers. The display shows automatically when cleaning is required.
-  Use to wash your normally soiled, durable cotton and linen laundry. Although it washes longer than all other programmes, it provides high energy and water savings. Actual water temperature may be different from the stated wash temperature. When you load the machine with less laundry (e.g. ½ capacity or less), programme time may automatically get shorter. In this case, energy and water consumption will decrease more, providing a more economic wash. This programme is available in the models with the remaining time indicator.
-  To drain the water in the machine.
-  Verlängerte Nachspülung
-  PRG NACHT
-  Super fast: a programme designed to wash small amounts of laundry fast, ideal for washing lightly soiled garments.
-  Shirts: a cycle to wash shirts in a short time with the utmost care, using a delicate spin for easy ironing.
-  Synthetics: to wash your synthetic clothes (shirts, blouses, synthetic/cotton blends, etc.). It washes with a gentle action and has a shorter washing cycle compared to the Cottons programme. For curtains and tulle, use the Synthetic 40°C programme with prewash and anti-creasing functions selected. As their meshed texture causes excessive foaming, wash the veils/tulle by putting little amount of detergent into the main wash compartment. Do not put detergent in the prewash compartment.
-  Drum has maximum capacity of 7kg of dry laundry.
-  Cotton: For soiled fabrics in cotton
-  Delicate: Clothing such as underwear, hosiery and luxury fabrics should be dried on the delicate cycle to help extend the life of the clothing.
-  Program designed for clothes that have to be stored or used immediately.
-  Mixed fabrics: this cycle is designed for lightly soiled laundry in a mix of cottons and synthetics, or can be used just to refresh stored items.
-  Super fast 15 min: a programme designed to wash small amounts of laundry fast, ideal for washing lightly soiled garments.
-  To drain the water into the basket + centrifuge action
-  Gym: Gym, a cycle designed for washing lightly soiled garments, ie sports wear, this is a fast wash which is also kind to fabrics.
-  Wool: this programme for wool or delicate fabrics uses slower rotations of the drum to ensure the utmost care for clothing.
