Technical Features

Type of motor Standard

Electronic control Yes

functioning

Programme selection knob Yes

Spin speed selection on display/LED No spin/ 600/ 800/ 1000

Polypropylene tank Yes

Basket Stainless steel

Drum capacity 44 l

Door diameter 30 cm

Door opening 135°

Automatic variable load Yes

Antifoam system Yes

Load balancing system Automatic

Easy to access filter Yes

Child lock (functions block) Control block

Performance / Energy Label - Reg. 2019

Supplier's name or trademark SMEG

Rated Capacity 6 kg

Energy Efficiency Class D

Energy_cons_100 65 kWh

Water Consumption 43 litres

Spin-drying efficiency class C

Airborne acoustical noise class B

Airborne acoustical noise 76 dB(A) re 1 pW

Programme duration at rated capacity 3:13 h:min

Compatible Accessories

KITPLV2

Kit extension for dishwasher and washing machine: lenght mt. 2

Symbols glossary

| | | | |
|--|---|---|--|
|  | A+++: Appliances with this symbol can reduce energy consumption by a further 30% from the standard A energy rating. |  | Variable load: In all models of washing machines is present the system of variable load, according to which the machine automatically diversifies the wash cycle and the time of operation depending on the quantity and type of laundry introduced, allowing a significant saving of water and energy power, up to 30% compared to the versions with fixed load. |
|  | Automatic Load Balancing: provides an ideal distribution of laundry in the drum. In case if the imbalance is detected, the rotation speed starts being controlled in such way to evenly redistribute laundry in the drum, and thus reduce vibration. |  | Child lock: some models are fitted with a device to lock the programme/cycle so it cannot be accidentally changed. |
|  | Delay timer: can be set to run the programme at a convenient time or to take advantage of off-peak energy periods. |  | 30 cm: Large loading hatch of 30-32-33 cm in diameter, makes laundry loading and unloading easier and faster with maximum ease of use. |
|  | This option advises when the periodic cleaning of the filters is needed, in order to avoid forgetfulness and thus guarantee the perfect functioning of the dryer over time. The convenient position of the filters makes maintenance fast and extremely simple. |  | End: Show the stage at which the program is in progress: the program has finished. |
|  | No spin option: this option allows to exclude the last spin phase, draining the water from the tank |  | Prewash: program designed for heavily soiled garments. |
|  | For lightly soiled fabrics in cotton and linen |  | Cotton 60°: For soiled fabrics in cotton |
|  | Cotton 90°: For soiled fabrics in cotton |  | Use to wash your normally soiled, durable cotton and linen laundry. Although it washes longer than all other programmes, it provides high energy and water savings. Actual water temperature may be different from the stated wash temperature. When you load the machine with less laundry (e.g. ½ capacity or less), programme time may automatically get shorter. In this case, energy and water consumption will decrease more, providing a more economic wash. This programme is available in the models with the remaining time indicator. |
|  | Prewash cotton |  | Extra Rinse: Extra Rinse: adds an extra rinse cycle to that already provided in the program chosen, to remove any residual detergent. This function is particularly suitable for those with allergies or skin problems. |
|  | Recommended for hand wash or delicate laundry |  | Hand wash: this specific programme for delicate fabrics uses slower rotations of the drum to ensure the utmost care for clothing. |

| | | | |
|--|---|---|--|
|  | Mix 30°: washing program that allows to wash your cotton and synthetic clothes together without sorting them. |  | Mixed fabrics: this cycle is designed for lightly soiled laundry in a mix of cottons and synthetics, or can be used just to refresh stored items. |
|  | Super fast 15 min: a programme designed to wash small amounts of laundry fast, ideal for washing lightly soiled garments. |  | Extra rinse: The Extra rinse option: can be added to the selected programme when more thorough cleansing of special fabrics is needed. |
|  | Shirts: a cycle to wash shirts in a short time with the utmost care, using a delicate spin for easy ironing. |  | Spin speed control: On the control panel there is a spin speed control knob. In some models, the maximum spin speed is 1400 rpm / min. You can also to exclude spin. |
|  | Synthetic 40 °: washing program at 30 ° for Synthetics items |  | Wool 30°: this programme for wool or delicate fabrics uses slower rotations of the drum to ensure the utmost care for clothing. |
|  | Wool: this programme for wool or delicate fabrics uses slower rotations of the drum to ensure the utmost care for clothing. |  | Drum has maximum capacity of 6kg of dry laundry. |
|  | Energy efficiency class D | | |
