Technical Features

Washing efficiency class	A	Water consumption (washing+drying) per cycle	89 l
Energy rating	BA	Duration of the normative programme	420 min
Noise level washing	56 dB(A) re 1 pW	Energy annual consumption (washing)	260 kWh
Noise level spinning	72 dB(A) re 1 pW	Energy annual consumption (washing+drying)	1120 kWh
Noise level drying	58 dB(A) re 1 pW	Water annual consumption (washing)	9800 l
Energy consumption - Cotton 60° - Wash only	1,3 kWh	Water annual consumption (washing+drying)	17800 l
		Residual humidity percentage (%)	50 %

Performance / Energy Label - Reg. 2019

			
Supplier's name or trademark	SMEG	Water consumption (washing cycle)	44 litre
Rated capacity washing cycle	7 kg	Water Consumption (complete cycle)	68 litre
Rated capacity complete cycle	4 kg	Spin-drying efficiency class	C
Energy efficiency class (washing cycle)	E	Airbone acoustical noise class	A
Energy efficiency class (complete cycle)	F	Airbone acoustical noise	70 dB(A) re 1 pW
Weighted energy consumption lavaggio	77 kWh	Eco 40-60 programme duration (Rated washing capacity)	2:50 h:min
weighted energy consumption (ciclo completo)	279 kWh	Wash and dry cycle duration (Rated capacity)	5:30 h:min

Symbols glossary

	Easy Iron: this is an option which can be selected to ensure the finished laundry is left with less creases to make ironing easier.		Variable load: In all models of washing machines is present the system of variable load, according to which the machine automatically diversifies the wash cycle and the time of operation depending on the quantity and type of laundry introduced, allowing a significant saving of water and energy power, up to 30% compared to the versions with fixed load.
	Autocleaning system: Autocleaning system avoids the formation of lint and impurities inside the condensation system ensuring maximum reliability of the machine.		Automatic Load Balancing: provides an ideal distribution of laundry in the drum. In case if the imbalance is detected, the rotation speed starts being controlled in such way to evenly redistribute laundry in the drum, and thus reduce vibration.
	Child lock: some models are fitted with a device to lock the programme/cycle so it cannot be accidentally changed.		Energy efficiency class F
	Cold wash.		Delay timer: can be set to run the programme at a convenient time or to take advantage of off-peak energy periods.
	LED display: to show programmes, functions and options selected and the time to the end of the cycle.		30 cm: Large loading hatch of 30-32-33 cm in diameter, makes laundry loading and unloading easier and faster with maximum ease of use.
	This shows the amount of laundry that can be inserted into the tumble dryer in KG.		Gentle drying: program designed to get laundry ready for easy ironing.
	B: Product energy rating, measured from A+++ to D / G depending on the product family.		This option advises when the periodic cleaning of the filters is needed, in order to avoid forgetfulness and thus guarantee the perfect functioning of the dryer over time. The convenient position of the filters makes maintenance fast and extremely simple.
	FlexiTime: The FlexiTime option allows the user to reduce the time of the cycle selected, providing extra flexibility and control.		Intensive option: this function extends the duration of the wash cycle and increases the intensity of the wash, ensuring a deeper cleaning for heavily soiled garments.
	No spin option: this option allows to exclude the last spin phase, draining the water from the tank		Prewash: program designed for heavily soiled garments.
	Cleaning programme: A cleaning programme has been created to maintain the performance of washer/dryers. The display shows automatically when cleaning is required.		For lightly soiled fabrics in cotton and linen
	Cotton 40°: For soiled fabrics in cotton		Cotton 60°: For soiled fabrics in cotton

	Cotton: programme designed for washing medium to heavily soiled cotton garments, ensuring thorough and effective cleaning.		Cotton 90°: For soiled fabrics in cotton
	Delicate 30°: Clothing such as underwear, hosiery and luxury fabrics should be dried on the delicate cycle to help extend the life of the clothing.		To drain the water in the machine.
	Program designed for clothes that have to be stored or used immediately.		Extra Rinse: Extra Rinse: adds an extra rinse cycle to that already provided in the program chosen, to remove any residual detergent. This function is particularly suitable for those with allergies or skin problems.
	Mix 30°: washing program that allows to wash your cotton and synthetic clothes together without sorting them.		Mixed fabrics: this cycle is designed for lightly soiled laundry in a mix of cottons and synthetics, or can be used just to refresh stored items.
	Night: an ideal programme for those who want to take advantage of off-peak energy periods, this cycle is particularly quiet due to slower rotations of the drum.		Quick 15 min.: ideal for small loads of lightly soiled garments, it guarantees a fast wash in a very short time.
	Rinse and Spin: this programme is suitable for rinsing and spinning garments.		Shirts: a cycle to wash shirts in a short time with the utmost care, using a delicate spin for easy ironing.
	Sport: programme designed to quickly wash sports and technical clothing, which undergo frequent washes, ensuring optimal hygiene and protection of the fibres.		Synthetic 30 °: washing program at 30 ° for Synthetics items
	Synthetic 40 °: washing program at 30 ° for Synthetics items		Wool Cold: this programme for wool or delicate fabrics uses slower rotations of the drum to ensure the utmost care for clothing.
	Volumeplus: Smeg offers models with load up to 8 kg, while maintaining the best washing results, and providing low energy consumption.		Drum has maximum capacity of 7kg of dry laundry.
