Kit extension for dishwasher and washing machine: lenght mt. 2

### KITPL60B

Toekick Kit in White colour with adjustable height and deepness. Can be installed over all the fully integrated and underbench models with variable fulcrum or flexifit hinges.

### KITPL60X

Toekick Kit in Stainless Steel with adjustable height and deepness. Can be fitted over all the fully integrated and underbench models with variable fulcrum or flexifit hinges.

## Symbols glossary

 To improve the drying of dishes without leaving stains.	 86 cm high
 Delay Timer: Option to postpone the start of the desired programme by up to 24 hours in order to programme the dishwasher to run at the desired time.	 LED display: to show programmes, functions and options selected and the time to the end of the cycle.
 The Dry Assist option ensures optimal drying of the dishes by automatically opening the door at the end of the wash cycle. Reducing the rinse temperature.	 FlexiDuo: The FlexiDuo 3rd cutlery basket allows you to arrange cutlery or small cups, ladles, or bulky utensils however you like: it consists of two separate and moveable modules.
 FlexiZone: The 1/2 load flexizone allows you to wash a reduced load saving energy, water and time and there are no restrictions on where the items are placed.	 The ExtraGlide guides system makes the second basket run even smoother and softer. It facilitates movement even when fully loaded, and thanks to the increased excursion, facilitates the insertion of dishes into the basket.
 Noise Level: Excellent insulation and special devices keep noise to a minimum.	 Orbital wash system distributes water evenly throughout the 60cm dishwasher cavity, directing water with precision to ensure an excellent wash.
 Delicate: Delicate washing program is designed for delicate dishes which are not heavily soiled.	 Mix: The Mix programme is suitable for mixed crockery and everyday pots and pans, without any particular incrustation.
 Soak programme: The soak programme provides a rinse to prevent dirt from drying.	 Express 27': The Express 27' programme is a quick wash cycle, at low temperatures, for lightly soiled dishes.
 13 place settings: Number of place settings.	 Total Acquastop: In addition to the partial Acquastop protection present in all Smeg dishwashers, some models have an electronic device fitted to the water intake hose, which monitors water levels in the machine, detects leaks in the hose and switches off the water supply immediately when necessary.
 Dishwasher cleaning cycle. The cycle should be started with the machine empty, without dishes. It is recommended to run the program every 2-3 months, using special dishwasher detergents.	 Allows you to enable additional programs when selected together with any wash cycle.
 STERYL 75°: Intensive wash cycle ideal for plates, pots, pans, cutting boards, feeding bottles.
