

## MID5CR

Familia	Grifo
Material MIXER	Bronce
Caño giratorio	Sí
Rotación caño giratorio	180 °

## Estética

Estética	Universal	Perforado / predispuesto para la perforación	Mobile semi-professional
Color	Cromado	Jet type	Double jets
Acabado	Brillante	Aireador	Sí
Spout type	Spring spout	Número de mangueras flexibles	2
Tipo fregadero	Semi-professional mono mando		

## Características técnicas

Características	ESC, WSC	Presión mínima	1 bar
Longitud mangueras flexibles	500 mm	Presión óptima	3 bar
Conexión de mangueras flexibles.	3/8 "	Water production (l/min)	12 l
Tipo de cartucho	35 Ø	Diámetro del orificio del grifo	35 mm
Presión máxima	5 bar		

## Datos logísticos

Altura del producto (mm)	550 mm

## Symbols glossary (TT)

---

- |   |   |
|---|---|
|  <p>ESC: con el sistema de cartucho de ahorro de energía ESC, la palanca de control colocada en el centro suministra solo agua fría, y no 50% de calor y 50% de frío. Para obtener agua caliente, gire la palanca más hacia la izquierda. Por lo tanto, el uso no opera la caldera.</p> |  <p>WSC: con el sistema WSC Water Saving Cartridge, la palanca de control se detiene a la mitad, permitiendo que el mezclador dispense el 50% del agua (suficiente para las actividades normales de la cocina) para ahorrar en el consumo de agua.</p> |
|  <p>Swivel spout rotation 180°</p>  |  <p>Double jet handshower. It is possible to simply switch between a standard stream mode and a spray mode.</p>  |
|  <p>The mobile hand shower of the Semi-Professional taps with high spout allows you to easily reach every point of the sink.</p>  |   |

## Benefit (TT)

---

Spout rotation 180°

### **Mobile shower semi-professional**

Practical mobile shower to easily reach every point of the sink

The mobile shower of the semi-professional taps with high spout allows you to easily reach every point of the sink for more practical and comfortable use, as well as easier cleaning

### **Double jet**

Double jet shower to meet different needs in the kitchen

The double jet shower offers the possibility of simply switching between standard and spray modes for greater convenience and versatility

### **Energy Saving Cartridge**

Energy saving thanks to the special Energy Saving Cartridge (ESC) function

With the ESC function, the tap lever set in a central position supplies only cold water, instead of mixed cold and hot water as usual, saving in energy consumption. For hot water, the lever must be turned to the left

### **Water Saving Cartridge**

Water consumption can be reduced thanks to the special Water Saving Cartridge (WSC) function

With the WSC function, the tap lever stops first halfway, providing only 50% of the normal water flow, reducing water consumption. It is possible to deliver 100% water flow by completely opening the tap lever
