| Nominale aansluitwaarde | 1500 W       | Frequentie (Hz)      | 50 Hz  |
| Stroom                  | 6,25 A       | Lengte voedingskabel | 100 cm |

## Symbols glossary

Sommige modellen zijn voorzien van een functie om het programma/de cyclus te blokkeren zodat het niet per ongeluk kan aangepast worden.

Defrost by time: Manual defrost function. At the end of the set duration, the function stops.

Fingerprint proof stainless steel: Fingerprint proof stainless steel keeps stainless steel looking as good as new.

Microwave: Penetrating straight into the food, microwaves cook very quickly and with considerable energy savings. Suitable for cooking without fat, they are also able to thaw and heat food without altering its original appearance and aroma. The microwave function can also be combined with conventional functions with all the resulting advantages. Ideal for all types of food.

Pizza microwave: This function cooks pizza quicker thanks to the microwaves. To optimize the final result, use the function combined with the Chef plate

The capacity indicates the amount of usable space in the oven cavity in litres.

Microwave energy shortens cooking times dramatically and produces energy savings.

Defrost by weight: Automatic defrost function. You choose the type of food to defrost from the available categories (MEAT - FISH - BREAD - DESSERTS) After entering the weight of the food, the oven automatically defines the time required for proper defrosting.

Grill: Very intense heat coming only from above from a double heating element. The fan is not active. Provides excellent grilling and gratinating results. Used at the end of cooking, it gives a uniform browning to dishes.

Microwave + grill element: The use of the grill results in a perfect browning of the surface of the food. The action of microwaves allows instead of cooking in a short time the internal part of the food.

Side lights: Two opposing side lights increase visibility inside the oven.

---

## Benefit (TT)

---

### **Electronic control**

Timely temperature management and heat uniformity

### **Automatic programmes**

Preset programmes to simplify use and improve efficiency

### **Child control lock**

Thanks to the child safety lock, the microwave provides peace of mind for parents while improving overall safety in the home environment

### **Pizza function**

Preset mode for optimal baking or heating of pizza
