## Symbols glossary

Surfaceplus ceramic base: Surfaceplus ceramic base for a microwave oven - no turntable required, and the whole surface can be used for cooking.

Microwave energy shortens cooking times dramatically and produces energy savings.

Defrost by weight: With this function the defrosting time is determined

Touch controls: Easy to use touch controls allow the appliance to be programmed at the touch of a button.

Child lock: some models are fitted with a device to lock the programme/cycle so it cannot be accidentally changed.

Defrost by time: with this function the time of thawing of foods are determined automatically.

Microwave: Penetrating straight into the food, microwaves cook very quickly and with considerable energy savings. Suitable for cooking without fat, they are also able to thaw and heat food without altering its original appearance and aroma. The microwave function can also be combined with conventional functions with all the resulting advantages. Ideal for all types of food.
