|  | Ultra-low profile: Installation of product with flat edge - height of 1 mm.   |  | Child lock: some models are fitted with a device to lock the programme/cycle so it cannot be accidentally changed.  |
|  | Overheat protection: The safety system that automatically turns off the hob in case of overheating of the control unit. |  | Indication of residual heat: After the glass ceramic hob is switched off the residual heat indicator shows which of the heating zones still remains hot. When the temperature drops below 60 ° C, the indicator goes out. |
