| Total no. of cook zones | 2 |

Options

| | | | |
|-----------------|------------|-----------------------------|-----|
| Worktop Cut-Out | 494x292 mm | Control Lock / Child Safety | Yes |
|-----------------|------------|-----------------------------|-----|

Technical Features

Front-centre - Induction - Single - 1.40 kW - Booster 2.20 kW - Ø 14.5 cm

Rear-centre - Induction - Single - 1.80 kW - Booster 3.00 kW - Ø 21.0 cm

Automatic setting according to pan dimension

Yes

Automatic switch off when overheated

Yes

pan detection

Yes

Residual heat indicator

Yes

Minimum pan diameter indication

Yes

Protection against accidental start up

Yes

Electrical Connection

Electrical connection rating (W)

3500 W

Frequency (Hz)

50/60 Hz

Power supply cable length

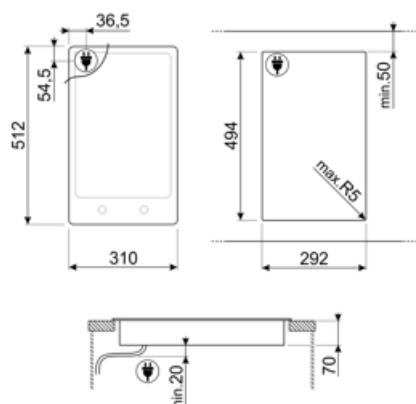

120 cm

Plug

Not present

Type of electric cable installed

Yes, Single phase

Compatible Accessories

6MP1PGF

6 Linea knobs for PGF hobs

LGPFG-1

Aluminium connecting strip for PGF

SCRP

Non-scratch hob scraper - suitable for induction and ceramic hobs

Symbols glossary

Ultra-low profile: Installation of product with flat edge - height of 1 mm.

Child lock: some models are fitted with a device to lock the programme/cycle so it cannot be accidentally changed.

Overheat protection: The safety system that automatically turns off the hob in case of overheating of the control unit.

Induction: The work of these hobs is based on the principle of electromagnetic induction. The heat is generated directly in the bottom of the pan during its contact with the hob.

Indication of residual heat: After the glass ceramic hob is switched off the residual heat indicator shows which of the heating zones still remains hot. When the temperature drops below 60 ° C, the indicator goes out.

Knobs control
