Symbols glossary

Ultra-low profile: Installation of product with flat edge - height of 1 mm.

Heavy duty cast iron pan stands: for maximum stability and strength.

Knobs control

Ultra rapid burners: Powerful ultra rapid burners offer up to 5kw of power.

Benefit

Gas hobs

Consistent heat source control and easy, immediate temperature adjustment

Equipped with a thermocouple, the gas supply is cut off if the flame is extinguished for greater safety.

Inox

Maximum resistance even at high temperatures: the stainless steel surface ensures durability and deformation resistance, withstanding thermal shocks without damage

Cast iron

Solid and sturdy, easy to clean and maintain every day, thanks to the cast-iron pan supports—an emblem of long-lasting efficiency and durability.

Standard

Optimal cooking for any dish: burners combine efficiency and practicality, ensuring precise and even results even with prolonged use.

Accurate power adjustment via control knobs, for more precise cooking control

Control knob position lateral

Greater safety: side knob placement makes them hard to reach for children, reducing the risk of accidental ignition.

5 powerful burners for a dynamic kitchen: offer ample space and flexibility to cook multiple dishes at once, simplifying meal prep and improving the cooking experience.

Gas safety valves

Automatic protection against gas leaks: the thermocouple stops gas flow in the absence of flame, ensuring a safe environment even during unexpected shutdowns.
