

PIP2951D

Product Family	Hob
Built-in type	Ultra-low profile or Fully Flushed
Dimensions	90 cm
Power supply	Electric
Type	Induction
EAN code	8017709310073

Aesthetics

Aesthetic	Universale
Colour	Black
Finishing	Glass
Material	Glass
Glass type	Ceramic
Glass edge	Straight edge
Type of control setting	Touch controls
Slider	Yes
Slider	Red
Control knob position	Front
Serigraphy colour	Grey

Program / Functions

No. of induction cook zones	5
Time-setting options	Automatic Shutdown
No. of cooking zones with booster	5
Main on/off switch	Yes
Power levels	9
Total no. of cook zones	5

Options

Standard cut out	478-482x839-844 mm
Multizone Option	Yes
Keep warm automatic function	Yes
End cooking timer	5
Pause option	Yes
Minute minder	1
End of cooking alarm	Yes

Residual time indicator	Yes
Limited Power Consumption Mode	Advanced Eco Logic
Limited Power Consumption Mode in W	2400 a 7400 - step 100 W
Showroom Demo Option	Yes
Control Lock / Child Safety	Yes
Quick start	Yes
Rapid level selection	Yes

Technical Features

Front-left - Induction - Single - 1.40 kW - Booster 2.10 kW - Ø 16.0 cm
 Rear-left - Induction - Single - 2.30 kW - Booster 3.00 kW - Ø 21.0 cm
 Central - Induction - Single - 2.30 kW - Booster 3.00 kW - Ø 25.0 cm
 Rear-right - Induction - Single - 2.30 kW - Booster 3.00 kW - Ø 21.0 cm
 Front-right - Induction - Single - 1.40 kW - Booster 2.10 kW - Ø 16.0 cm

Automatic setting according to pan dimension	Yes	Automatic switch off when overflow	Yes
pan detection	Yes, min 7 cm	Residual heat indicator	Yes
Permanent Automatic Pot Detection with indication of the relative control	Yes	Protection against accidental start up	Yes
Automatic switch off when overheat	Yes		

Electrical Connection

Electrical connection rating (W)	7400 W	Type of electric cable	Double phase
Current	33 A	Frequency (Hz)	50/60 Hz
Voltage (V)	220-240 V	Power supply cable length	120 cm
Voltage 2 (V)	380-415 V	Terminal box	5 poles
Type of electric cable	Single phase		

Compatible Accessories

SCRAP

Induction and ceramic hobs and teppanyaki scraper

Symbols glossary

	Automatic merge of zones for a bigger area		...
	Power booster: option allows the zone to work at full power when very intense cooking is necessary.		Child lock: some models are fitted with a device to lock the programme/cycle so it cannot be accidentally changed.
	Touch control		The slider control panel allows you to adjust the power simply by passing your finger across the touch device.
	Keep warm function: Keep warm function keeps the cooked food heated. In this mode the heating zone operates at a minimum capacity for 120 minutes and then turns off automatically.		Overheat protection: The safety system that automatically turns off the hob in case of overheating of the control unit.
	Induction: The work of these hobs is based on the principle of electromagnetic induction. The heat is generated directly in the bottom of the pan during its contact with the hob.		Overfill protection: The special overfill protection shuts down the stove in the presence of overflow of liquids.
	...		PAUSE_72dpi
	...		Quick selection, with one touch cooking begins at the highest level, then automatically reduces after time. Ideal for dishes that require quick boiling and then continued cooking without constant control (eg beef broth).
	Quick Start function: the chosen temperature is reached faster. The heating element works at maximum power until the right temperature is reached.		Indication of residual heat: After the glass ceramic hob is switched off the residual heat indicator shows which of the heating zones still remains hot. When the temperature drops below 60 ° C, the indicator goes out.
	Time elapsed: shows how long the cooking zone has been in use.		Timer: All ceramic hobs have a timer which automatically ends cooking after a preset time.

Benefit (TT)

Induction hobs

Fast cooking and precise temperature control

Glass

Brightness and elegance in the kitchen: the acid-etched glass gives the surface a refined, modern look that enhances the space.

Ceramic

Stability and design even up to 700°C: the cooktop material resists high temperatures without deforming, maintaining aesthetics and functionality even with intensive use.

Immediate access to functions via touch display, for simple and intuitive control

Control knob position frontal

Instant and intuitive control thanks to front controls, easily accessible for practical use.

Keep Warm function

Dishes always served at the right temperature, even after cooking, thanks to the Keep Warm function

Nine power levels and Boost function for optimal cooking performance

Permanent Automatic Pot Detection with indication of the relative control

Automatic activation of the correct cooking zone with Autopot Detection, recognizing the pot without user intervention
