|  | The automatic defrost system works by automatically defrosting at regular intervals eliminating the need to defrost altogether.                                                                                                         |  | Fast freezing: The fast freezing function brings the temperature of the compartment down when activated a few hours prior to usage. |
|  | Power saving mode: The power saving mode allows you to disable the refrigerator and keep the freezer working.                                                                                                                           |  | LED interior lighting: is a more energy efficient and long lasting way of illuminating the interior of the appliance.               |
|  | Inverter technology: The evolution of Smeg's driers towards more intelligent and environmentally sustainable models has led to the choice of using Inverter technology with heat pumps, which reduces significantly energy consumption. |  | Air plus: keeps food fresher for longer.                                                                                            |
|  | Sabbath: This function allows you to cook food during the Sabbath, the Holiday of rest in the Jewish religion, respecting the precepts. The oven works                                                                                  |                                                                                   |                                                                                                                                     |
