|  | The automatic defrost system works by automatically defrosting at regular intervals eliminating the need to defrost altogether.     |  | Energy efficiency class E                                                                                                                  |
|  | LED display: to show programmes, functions and options selected and the time to the end of the cycle.                               |  | Economical mode: Analyzes fridge functioning during the activation and optimizes the operating cycle in order to reduce power consumption. |
|  | Fast freezing: The fast freezing function brings the temperature of the compartment down when activated a few hours prior to usage. |  | LED interior lighting: is a more energy efficient and long lasting way of illuminating the interior of the appliance.                      |
|  | Multiflow Cooling System: the Multiflow ventilation system allows an even distribution of cool air around the fridge cabinet.       |                                                                                   |                                                                                                                                            |
